---

On October 4, 2022, Rocky Mountain Power (“Company”), a division of PacifiCorp, applied (“Application”) to the Idaho Public Utilities Commission (“Commission”) for approval of a capacity deficiency period determination beginning in the summer of 2023, to be used in determining avoided cost rates and payments for qualifying facilities (“QF”) under the Public Utility Regulatory Policies Act of 1978 (“PURPA”).

On December 21, 2022, the Commission issued a Notice of Extension of Comment Deadlines. Order No. 35637. Staff filed comments to which the Company replied. No other comments were received.

On June 29, 2023, a Final Order was issued instructing the Company to file a compliance filing to address several compliance items. The Company was to submit this filing within 21 days.

On July 12, 2023, the Company filed a motion requesting that the Commission waive the previously ordered compliance filing; the Company stated the compliance items could be fully incorporated into the next capacity deficiency case—which could be filed immediately after the acknowledgement of the 2023 Integrated Resource Plan (“IRP”).

At the Commission’s August 1, 2023, Decision Meeting, Staff presented a Decision Memorandum recommending the Commission waive the compliance filing and direct the Company to file its capacity deficiency case after the acknowledgement of the 2023 IRP—with the compliance items incorporated into the application for the new capacity deficiency case.

**COMMISSION DECISION**

In Order No. 35834 the Commission conditionally approved the Company’s Application providing the Company complied with the requirements of that Order. After reviewing the record in this case, including the Company’s motion filed on July 12, 2023, and Staff’s August 1, 2023, Decision Memorandum, we find it fair, just, and reasonable to conditionally grant the Company’s request in this matter. Therefore, the Commission approves a waiver of the previously ordered

compliance filing conditional upon the Company incorporating the unresolved compliance items into the Company's application for its 2023 capacity deficiency case after the acknowledgement of the 2023 IRP.

**ORDER**

IT IS HEREBY ORDERED that the Commission approves the waiver of the compliance filing ordered in Order No. 35834 conditional upon the Company incorporating those compliance items which have not been previously addressed into the Company's application for its 2023 capacity deficiency case.

THIS IS A FINAL ORDER. Any person interested in this Order may petition for reconsideration within twenty-one (21) days of the service date of this Order regarding any matter decided in this Order. Within seven (7) days after any person has petitioned for reconsideration, any other person may cross-petition for reconsideration. *Idaho Code* § 61-626.

DONE by Order of the Idaho Public Utilities Commission at Boise, Idaho this 10<sup>th</sup> day of August 2023.
