Safety is a community effort that takes all of us working together. As we're taking steps to continue to mitigate wildfire risks by strengthening our system, pruning more trees and partnering with state and local agencies on emergency preparedness, it's also important for you to update your contact information and sign up for alerts with us.

Other ways to take action at home: Make a plan, create defensible space, and plan for medical needs. Consider a backup generator if your medical equipment requires electricity. Signing up for reverse notifications if an emergency happens is easy and free. Check your local emergency management or public safety website for more information on how to sign up.

Visit our wildfire safety resource center to access an easy-to-use interactive map showing Public Safety Power Shutoff areas, outage preparation checklists, and view the 7-day forecasts for designated areas at rockymountainpower.net/wildfiresafety.
