Address: 11 N 3667 E

Rigby, ID 83442

Name of Utility Company: Rocky Mountain Power

Case ID: PAC-E-24-04

Comment: "I just read that they weaned a 26.8 % rate increase! No! I am sick of these power companies making their investor money off the back of the people needing the power! They are getting as bad as PG@E in CA where we moved from and doing the same sneaky crap, hoping consumers won't notice. It isn't our fault that they are being sued by OR for starting wildfires, if OR would manage their forests like other states it wouldn't happen, same with CA. I really hope the commissioners on Idaho's board will do the right thing and say NO, to protect the consumer who is barely hanging in this horrible Democratic ruled government. Idaho is suppose to be fiscally conservative and thus I would hope those looking at this rate increase would rule that way. It is time to stop this abuse by these power companies, Idaho will be resembling CA here pretty soon thanks to policies forced on us by the feds and by corrupt power companies like Rocky Mountain! I don't care if Idaho is paying the "lowest" of any state or whatever BS they put out, it is still a huge rate increase and we just had one last year! If you allow this to go through shame on you and Little should be ashamed as he appointed those making these rulings. I will be writing his office next and our Attorney Generals. "
