RE: Response to Proposed Agency Record on Appeal, Supreme Court Docket No. 51238-2023

Dear Ma'am,

We have received the Proposed Agency Record on Appeal and do hereby notify you of the following errors or omissions, along with our requested correction:

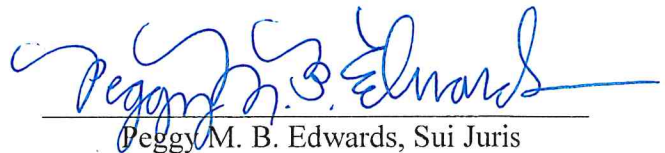

- 1) ERROR: IPUC Web Comment dated 24 March 2023 is addressed to Christy Armbruster and is unrelated to our complaint/appeal. We request that it be removed from the Agency Record.
- 2) OMISSION: The Clerk's Certificate of Service of Proposed Agency Record dated 20 November 2023 was not included. It should be added, per Table of Contents.
- 3) ERROR: On Page 4, Alphabetical Table of Contents, the date is incorrect for our Petition for Reconsideration (page 173). It should be changed from 25 August to 31 July 2023.
- 4) OMISSION: Our email of 9/27/2023 notifying the Commission Secretary and representatives of ROCKY MOUNTAIN POWER/PACIFICORP of Final Notices served (again) to Complainant-Appellants, and its attachment: the file-stamped Amicus Curiae Briefing mentioned (and dismissed) in Order 35904. We request that this email and its file-stamped attachment be included within the Agency Record.

Thank you for this opportunity to review and comment on the Proposed Agency Record and for the updated link when the first didn't work. As a final point, we request that this "Response to Proposed Agency Record" also be included within the Agency Record.

Very truly,

Samuel Z. Edwards, Sui Juris

Peggy M. B. Edwards, Sui Juris
