On February 6, 2004, Avista Corporation dba Avista Utilities (Avista; Company) filed an Application with the Idaho Public Utilities Commission (Commission) for authority to increase the Company's general rates for electric and natural gas service by averages of 24.1% and 9.2%, respectively. If approved, Company revenues for electric base retail rates would increase by \$35.2 million annually; Company revenues for natural gas service would increase by \$4.7 million annually. A proposed reduction in the Company's current Power Cost Adjustment (PCA) surcharge rate is also requested. The net amount of actual increase varies by class of customer and usage.

The Commission is informed that Avista, Commission Staff and the intervening parties, Potlatch Corporation and Couer Silver Valley, Inc. have agreed to proposed scheduling in this case. The Commission has reviewed the proposed scheduling and found it acceptable. There being no additional issues the parties wish to present, it was agreed by the parties that the March 16, 2004, pre-hearing conference should be vacated.
