Avista's request for another
Idaho PUC Rate Increase

RECEIVED
2009 MAR -01 AM 8:22
Avista is getting out
of hand

How deep of pockets
do Avista think we
have? I'm down to
one meal a day and
in today's economy that
may not last! I know,
my problem!

Further every taxing
district is nickle dime
constantly.

I'm Elderly and I kind
of wanted to stay in my
home! In this economy
everyone has to cut
back, so should Avista!

This letter concerns the recent request from Avista to increase their electric rates again.

I am a senior citizen who is employed full time. My employer just placed a wage freeze on payroll and all employees have not or will not receive any pay increases.

My electric bill increased \$75 for the month of January. I had not done anything different. I keep my thermostat at 68° during the winter months. When I called Avista to complain, their excuse was "it was cold".

If you allow this increase, you are hurting us citizens here in M. Idaho greatly. We are all struggling and the Corporations are making billions at our expense. JUST SAY NO

Roberto Cowell

Dear Sirs:

I am not a lady who owns
a computer or a cell phone. In my
career there is no need for it.

I am a small business person I own
my home. The bills I get now are
so high. Even turnkey the heat down turn
63 during the day. When I get home
it to 65. You a few hours then turn
it back down again to 63 when I retire
for the evening. My bills are high and do
anything I can to keep my bills down.

When I saw recently what Adista had
in earnings I just couldn't believe it.
And, you they want another increase.
Please turn them down. There is no reason
for Adista to get any more increase. It's
a good time. I can only hope you
read this letter. This time do what the
people want. Get what Adista wants.
We must all tighten our belts at this
time so must Adista.

I really hope you do what the people
want and really listen to them. Whether
you are young or old. The dollar only goes
so far. Please do the right thing and
vote these increases down.

Sincerely
Donna Wells

RE: AVISTA rate hike

Sirs and Madams:

Regarding the request by AVISTA for another rise in the cost of electricity, please consider that the incomes of many customers of that utility have suffered because of the present economic situation.

Please decide that the cost of expanding the generation capacity, and profit, of AVISTA be shared on an equity basis: An eight percent rise in cost to the customer, and eight percent decrease in stockholder dividends, and an eight percent contribution on wages and bonuses from each and all AVISTA employees and executives.

Thank you,
