Contact E-Mail: themillers@cpcinternet.com Name of Utility Company: Avista Add to Mailing List: yes

Please describe your comment briefly:

Re: proposed Avista rate hike of 12.8% electric Our utility bills are already up this year, compared with the last two years. Costs for most basic goods and services in other sectors are even or down this year because of the recession. I fail to see why Avista needs more money, particularly over 12%. Also, I understand that hydropower represents a primary source of power production for Avista. This cost should not have increased since this is a good water year. I am very much against granting this increase, specifically at this time of economic stress. However, if in the future, we are switching to green power, I would be willing to support a 5% increase at that time.

Please take into consideration those of us who are on fixed incomes when you look into a rate increase for Avista. All of us here in Northern Idaho feel that a rate increase is coming and there is nothing we can do about it. Please change our attitude and vote for NO increase. thank you.

Doug
