IDAHO PUBLIC  
UTILITIES COMMISSION

I did not go to your work shop i didnt know about it. I really dont think it makes a difference what people say. Avista is going to do what ever they please to do.

The rates are now so high that people cant pay. what will it be like when another raise comes. I believe avista is robbing people without a gun.

People like myself on fixed income and live alone can not make it now as it is. Do we have to not have gas or electric. Just so avista's so can get fat raises. I guess i'm saying no for the raise, as if that makes a difference.
