Please describe your comment briefly:

I am distressed with the numerous increases my bill has gone up in the last year. My bill has gone from \$254.00 to \$363.00 and they have done this already starting in March and are already talking more increase of 12.8% knowing they will not get the full increase but a majority of it. I am a single woman living on a fixed income and am going to be forced out of my home if my bill keeps increasing at this ridiculous rate. I have done several upgrades from windows, doors and insulation but none of this seems to be helping.

I am sure that I am just a voice shouting in the wind but with economic conditions we are having I am sure that I am not alone in my distress. I think Avista should be ashamed of themselves as this is a true fleecing of America. If the fat cats that are making these decisions would consider their own salaries maybe the increase would not be needed!!!!!!

First this is supposedly a PUBLIC utility,if they make a profit it should go to improve the service,not to a company exec.  
Most heads of municipals are overpaid and overcompensated because of lack of controls in this area. It seems they vote themselves raises rather than earning them .  
Tax dollars are used to build these facilities then the tax dollar supplier is charged to use it,is this the national parks system or what ?  
they do not need an increase if they made 40 MILLION in profit last year. Thanks Don Wood owner operator
