Name of Utility Company: Avista  
Acknowledge public record: True

Comment: I do not agree with Avista's purposed rate increase. In a nut shell I don't think we should have to pay for their "building their business". They should invest their own money to improve their business. It would be the same as if I were a contractor and handed my client a bill and then said "oh ya and I want ten dollars to go towards a new drill" They would tell me to go pound sand.

If it were an increase in the cost of doing business it would be different. But not for this.
