Comment: I oppose the rate increase. Avista recently gave their CEO a 90% increase. They are not funding infrastructure, they are funding inflated salaries

Comment: With Avista having record breaking profits, a CEO making millions, and the fact that they spend money on a sports stadium and advertising, maybe that money should be put back into the company instead of raising rates.

Comment: Dear Commission,

I ask that you only allow Avista to increase their monthly base electric and gas rate by their requested .25. Increasing the electric rates by 12.4% over the next two years is too much! The people didn't ask them to redo their website or software and so we shouldn't have to pay for this unneeded expense. This should be their overhead with their choice. Our incomes don't go up that much, 3% for most of the working population. And those that are retired are worse off. Please say no to Avista's request.

Wishing you the best,

Lynda
