Name of Utility Company: Northernlights

Comment: I do not have a clue as to how any public utility or private utility has the ability or time ritzy to sell the natural resources that the people of this country own...to another country. How dare those persons responsible for this even think they have the right to do this! The people gave them the right to produce the energy to sell to us for our use. The natural resources belong to all the people in this country. Period!

Name of Utility Company: AVISTA

Comment: The United States should NOT turn over control of our electric power - AVISTA - to foreigners. Canada's Prime Minister Justin Trudeau is currently in a "tit-for-tat" releasing a final list of items that will be targeted for tariffs against the US. The Prime Minister says Canada "has had no CHOICE" but to enact these countermeasures. WE NEED TO KEEP CONTROL OF OUR ELECTRIC POWER!

Comment: foreign governments can not and should not own american utilities for national security reasons. There are no reasons to sell avista to any foreign government or company.
