Coeur d'Alene, ID 83814

Name of Utility Company: Avista

Case ID: AVU-E-23-01

Comment: "I would like to encourage the commission to deny this electrical increase request. The requested increase is excessive, far exceeds the rise of inflation and labor, and is merely being used by Avista to fund and build out their green agenda. Please remember that Avista is based in Washington and is being required by that state to transition to "green" based energy supplies. Again, please deny or significantly trim down the amount of any potential electrical increases. Thank you"

Comment: "I live in Kootenai County and Avista Utilities is my energy provider (gas and electric) I am very concerned about their proposed increase for September 2023 and September 2024 Avista is asking for an increase of their basic charge from \$7.00 to \$20.00 on electric and gas for a total of \$40.00 a month before any energy usage (that is a almost a 300% increase)! And a 20% increase in electricity and 3.6% increase in natural gas for Residential Service. I find this to be totally unacceptable! That is an undue burden on the elderly on a fixed income and the low income residents that Avista serves. Thank you so much for taking the time to address my concerns, Ralph"

Comment: "Greetings, My comments are simple. My last electric/gas bill was \$562. I am retired, with disabled grandson,wife. A 20% increase proposed by Avista is too much. With property taxes going higher, utilities, and on fixed income, where does it stop. Please do not allow the proposed increases by Avista. Mark"
