Comment: "If I follow the rate increase correctly, I am paying seven dollars minimum for gas and in 2024 it will be going up to \$20. That's a huge increase in a short period of time and I am sure it will impact many of us senior citizens, figuring the increase on electric and gas in 2024 it'll be \$40 minimum versus the 14 now I feel there should be some considerations and or spread over a longer period of time. Thank you for listening. "
