Name of Utility Company: Intermountain Gas Company

Case ID: INT-G-21-04

Comment: "The Intermountain Gas Company annual gas cost adjustment application to change its prices by an average increase of 9.6% is excessive! Residential customers continue to pay more for all utilities, services and taxes. If I, as an employee, made an annual demand for a wage increase of 9%, it would be outrageous, but you are considering approval of this increase? Oppose it! Thank you. "
