BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

In the Matter of the Application of
INTERMOUNTAIN GAS COMPANY
for Authority to Change its Prices

Case No. INT-G-22-02

APPLICATION

Intermountain Gas Company (“Intermountain” or “Company”), a subsidiary of MDU Resources Group, Inc. with general offices located at 555 South Cole Road, Boise, Idaho, pursuant to the Rules of Procedure of the Idaho Public Utilities Commission (“Commission”), hereby requests authority, pursuant to Idaho Code Sections 61-307 and 61-622, to place into effect August 1, 2022 new rate schedules which will increase rates for its RS, GS-1, IS-R, IS-C, and LV-1 customer classes. The proposed changes will increase the Company’s annualized revenues by approximately \$67 million, however, Intermountain’s earnings will not be increased as a result of the proposed changes in prices and revenues. Exhibit No. 1 is a summary of the overall price changes by class of customer and is attached and incorporated by reference. Intermountain’s current rate schedules showing proposed changes are attached as Exhibit No. 2 and incorporated by reference. The resulting proposed rate schedules are attached as Exhibit No. 3 and incorporated by reference.

Please address communications regarding this Application to:

Lori A. Blattner
Director – Regulatory Affairs
Intermountain Gas Company
Post Office Box 7608

In support of this Application, Intermountain alleges and states as follows:

I.

Intermountain is a gas utility, subject to the jurisdiction of the Commission, engaged in the sale of and distribution of natural gas within the State of Idaho under authority of Commission Certificate No. 219, issued December 2, 1955, as amended and supplemented by Order No. 6564, dated October 3, 1962.

Intermountain provides natural gas service to the following Idaho communities and counties and adjoining areas:

Ada County - Boise, Eagle, Garden City, Kuna, Meridian, and Star;
Bannock County - Arimo, Chubbuck, Inkom, Lava Hot Springs, McCammon, and Pocatello;
Bear Lake County - Georgetown, and Montpelier;
Bingham County - Aberdeen, Basalt, Blackfoot, Firth, Fort Hall, Moreland/Riverside, and Shelley;
Blaine County - Bellevue, Hailey, Ketchum, and Sun Valley;
Bonneville County - Ammon, Idaho Falls, Iona, and Ucon;
Canyon County - Caldwell, Greenleaf, Middleton, Nampa, Parma, and Wilder;
Caribou County - Bancroft, Grace, and Soda Springs;
Cassia County - Burley, Declo, Malta, and Raft River;
Elmore County - Glens Ferry, Hammett, and Mountain Home;
Fremont County - Parker, and St. Anthony;
Gem County - Emmett;
Gooding County - Bliss, Gooding, and Wendell;
Jefferson County - Lewisville, Menan, Rigby, and Ririe;
Jerome County - Jerome;
Lincoln County - Shoshone;
Madison County - Rexburg, and Sugar City;
Minidoka County - Heyburn, Paul, and Rupert;
Owyhee County - Bruneau, Marsing, and Homedale;
Payette County - Fruitland, New Plymouth, and Payette;
Power County - American Falls;
Twin Falls County - Buhl, Filer, Hansen, Kimberly, Murtaugh, and Twin Falls;

Washington County - Weiser.

Intermountain's properties in these locations consist of transmission pipelines, liquefied natural gas storage facilities, compressor stations, distribution mains, services, meters and regulators, and general plant and equipment.

II.

With this Application, Intermountain seeks to pass through to each of its customer classes changes in gas related costs resulting from an increase in the Company's Weighted Average Cost of Gas ("WACOG"). If approved, these changes would result in a price increase to Intermountain's RS, GS-1, IS-R, IS-C, and LV-1 customer classes, which are affected by and subject to Intermountain's Rate Schedule PGA, initially approved by this Commission in Order No. 26109, Case No. INT-G-95-1, and additionally approved through subsequent proceedings.

III.

The Commission approved the current prices related to the cost of gas in Order No. 35182, Case No. INT-G-21-04.

IV.

Over the last several months, natural gas prices have climbed across the United States including in the three supply basins that affect the Company's weighted average cost of gas. Several factors contribute to this increase. First, as the country has slowly come out of the main COVID-19 pandemic—or, at least, as restrictions related to COVID-19 have eased—the demand for natural gas has exceeded supply. This stems, at least in part, from the fact that many producers have used revenue from increased gas prices to pay down debt rather than invest in additional drilling activity. Additionally, the United States continues to export large amounts of LNG to other countries, which has further diminished supply. Second, there is a concern that

national storage gas levels will not be at ideal levels by November 1, 2022. Total storage on November 1 is estimated to be approximately 3.4 TCF versus a preferred level of 3.9 TCF. The expectation of tighter natural gas supplies this fall is putting upward pressure on forward prices. Third, power generation using natural-gas powered resources has proven to be very resilient in the face of higher gas prices, due in part to increasingly lower coal stockpiles. Finally, global events, such as the war in Ukraine and the recent lockdowns in China, have further exacerbated supply-chain issues around the country, which also contributes to the emotion in the market that is further contributing to the rise in gas prices.

V.

Commission Order No. 35182 directed the Company to “notify the Commission promptly if an interim filing is needed.” The Company respectfully submits that an interim filing is needed at this time to update the Company’s currently approved WACOG rate to better reflect current natural gas cost levels and reduce the amount of deferred gas costs that will need to be included in the Company’s regular Purchased Gas Cost Adjustment (“PGA”) filing.

VI.

The proposed WACOG rate reflected in Intermountain’s proposed prices is \$0.42405 per therm. This compares to \$0.26000 per therm currently included in the Company’s tariffs. The resulting increase can be seen on Exhibit No. 1, Page 1, Column (f). Line Break Pricing has been updated to reflect the proposed changes as shown on Exhibit No. 2, page 2, Line 19.

VII.

Intermountain believes that the WACOG rate proposed in this Application, subject to the effect of actual supply and demand and based on current market conditions, provides today’s most reasonable forecast of gas costs for the June 2022 – September 2022 period, and reflects a just, fair,

and equitable change in gas costs to Intermountain's RS, GS-1, IS-R, IS-C, and LV-1 customers. Although the proposed WACOG reflects a significant price increase for all customers, the Company is hopeful that this interim filing will mitigate the build-up of deferrals as well as provide a price signal that will allow customers extra time to budget for the increased costs before the winter heating season arrives.

VIII.

The Company does not propose to change its gas transportation cost or temporary purchased gas cost adjustment rates at this time. These rates, along with an updated estimate of the WACOG rate, will be adjusted as part of the Company's regular PGA filing.

IX.

This Application has been brought to the attention of Intermountain's customers through a Customer Notice and by a Press Release sent to daily and weekly newspapers, and major radio and television stations in Intermountain's service area. The Press Release and Customer Notice are attached and incorporated by reference.

X.

Intermountain requests that this matter be handled under modified procedure pursuant to Rules 201-204 of the Commission's Rules of Procedure. Intermountain stands ready for immediate consideration of this matter.

XI.

Intermountain respectfully petitions the Idaho Public Utilities Commission as follows:

a. That the proposed rate schedules submitted as Exhibit No. 3 be approved without suspension and made effective as of August 1, 2022 in the manner shown on Exhibit No. 3,

b. That this Application be heard and acted upon without hearing under modified procedure,

and

c. For such other relief as this Commission may determine proper.

DATED: May 31, 2022.

	Block Three		\$0.02165
	2) Weighted average cost of gas		\$0.26000 <u>\$0.42405</u>
	3) Gas transportation cost (Block One and Two only)		\$0.09154
Distribution Cost:	Block One:	First	250,000 therms per bill @ \$0.03000
	Block Two:	Next	500,000 therms per bill @ \$0.01211
	Block Three:	Over	750,000 therms per bill @ \$0.00307

PURCHASED GAS COST ADJUSTMENT:

This tariff is subject to an adjustment for the cost of purchased gas as provided for in Rate Schedule PGA. This adjustment is incorporated into the calculation of the Cost of Gas stated on customer bills.

SERVICE CONDITIONS:

1. All natural gas service hereunder is subject to the General Service Provisions of the Company's Tariff, of which this Rate Schedule is a part.
2. The customer shall negotiate with the Company, a mutually agreeable Maximum Daily Firm Quantity (MDFQ), which will be stated in and in effect throughout the term of the service contract.
3. The monthly Demand Charge will be equal to the MDFQ times the Demand Charge rate. Demand Charge relief will be afforded to those LV-1 customers when circumstances impacted by force majeure events prevent the Company from delivering natural gas to the customer's meter.

1. All natural gas service hereunder is subject to the General Service Provisions of the Company's Tariff, of which this rate schedule is a part.

**Rate Schedule IS-R
RESIDENTIAL INTERRUPTIBLE SNOWMELT SERVICE**

APPLICABILITY:

Applicable to any residential customer otherwise eligible to receive service under Rate Schedule RS who has added natural gas snowmelt equipment after 6/1/2010. The intended use of the snowmelt equipment is to melt snow and/or ice on sidewalks, driveways or any other similar appurtenances. Any and all such applications meeting the above criteria will be subject to service under Rate Schedule IS-R and will be separately and individually metered. All service hereunder is interruptible at the sole discretion of the Company.

FACILITY REIMBURSEMENT CHARGE:

All new interruptible Snowmelt service customers are required to pay for the cost of the Snowmelt meter set and other related facility and equipment costs, prior to the installation of the meter set. Any request to alter the physical location of the meter set and related facilities from Company's initial design may be granted provided, however, the Company can reasonably accommodate said relocation and Customer agrees to pay all related costs.

RATE:

Monthly minimum charge is the Customer Charge.

CASE NO. INT-G-22-02

INTERMOUNTAIN GAS COMPANY

(4 pages)

Intermountain Gas Company files price increase request as part of interim PGA

BOISE, ID – May 31, 2022 – Intermountain Gas Company today filed an interim purchased gas cost adjustment (PGA) application with the Idaho Public Utilities Commission to increase its prices by approximately 25.2% or \$67 million. If approved, the increase would be effective Aug. 1, 2022.

The primary reason for the filing is a significant increase in the commodity price for natural gas. Over the last several months, natural gas prices have climbed not only across the country, but also across the globe. A rebound in demand, lower than average storage levels, high levels of liquified natural gas exports and other global events have combined to create strong upward pressure on prices.

Intermountain typically files PGAs on an annual basis to balance out an over collection or under collection of natural gas costs. Because commodity prices have increased so dramatically, the company filed an interim increase to mitigate the under collection balance. If left unchanged until later in the year, the monthly increase for customers would be greater because of the under collection balance.

Intermountain's earnings will not increase as a result of this filing. Because the price Intermountain pays for natural gas is passed through directly to customers, there is no financial benefit to the company from this proposed price increase.

If approved, a typical residential customer would see an increase of \$10.55, or 24.1%, per month based on average weather and usage. Commercial customers, on average, would see an increase of \$51.87, or 27%, per month.

As a way to help customers better budget their energy costs, Intermountain offers a Level Pay program that helps even out monthly payments. Customers struggling to pay their bills may also qualify for federal or state energy assistance and should contact Intermountain to find out more or arrange a payment plan to help manage any past due balance on their account.

“The economic rebound, coupled with a slow ramp up of drilling activity, also is playing a role in increased commodity prices,” said Scott Madison, executive vice president of business development and gas supply for Intermountain

Intermountain urges all customers to use energy wisely. For more information about the company's energy efficiency program and available rebates for installing high efficiency equipment, visit www.intgas.com/saveenergy. Conservation tips, information on government payment energy assistance and programs to help consumers level out their energy bills over the year can be found on the company's website www.intgas.com.

The request is a proposal and is subject to public review and approval by the PUC. A copy of the application is available for review at the commission, its homepage www.puc.idaho.gov, as well as the company's website www.intgas.com. Written comments regarding the application may be filed with the commission. Customers may also subscribe to the commission's RSS feed to review periodic updates via email.

Intermountain Gas Company is a natural gas distribution company serving approximately 402,300 residential, commercial and industrial customers in 74 communities in southern Idaho. Intermountain is a subsidiary of MDU Resources Group, Inc., a Fortune 500 company and a member of the S&P MidCap 400 and the S&P High-Yield Dividend Aristocrats indices, and is Building a Strong America® by providing essential products and services through its regulated energy delivery and construction materials and services businesses.
