Name of Utility Company: Intermountain Gas Co

Contacted Utility: No

Comment: "I am asking the IPUC not to allow Intermountain Gas to assess a 4.4% rate increase. This is not right by increasing commercial by only 1.5%. That is a large increase and for what? They need to cut cost in other areas. We the consumer are getting pounded by inflation and we need reasonable gas rates to heat our homes. Thanks Dale Heintz "
