On January 16, 2026, Intermountain Gas Company (“Company”) applied to the Idaho Public Utilities Commission (“Commission”) requesting authority to revise Rate Schedule EE-RS— Residential Energy Efficiency Rebate Program. The Company requests an effective date of March 1, 2026.

The Commission now issues this Notice of Application, Notice of Modified Procedure, and Notice of Suspension of the Company’s proposed effective date.

NOTICE OF APPLICATION

YOU ARE HEREBY NOTIFIED that the Company previously offered to retire its Whole Home Tier I energy efficiency rebate measure in a petition for clarification or reconsideration in Commission Case No. INT-G-24-05. Application at 3. The Commission ruled that the Company would have to request retirement of the measure through a separate filing that provided interested parties the opportunity to participate in the proceeding. *Id.* In response, the Company filed the Application, requesting authorization to retire the Whole Home Tier I measure. *Id.*

YOU ARE FURTHER NOTIFIED that the Company states that the Whole Home Tier I measure was not evaluated in the 2024 Evaluation, Measurement, and Verification (“EM&V”) study due to inadequate data for a meaningful evaluation resulting from limited customer participation in the rebate measure. *Id.* The Company further represents that based on Commission Staff’s (“Staff”) therm savings estimate included in Staff’s comments in Case No. INT-G-24-05, the Whole Home Tier I rebate measure is not cost effective. *Id.* at 4.

NOTICE OF APPLICATION
NOTICE OF MODIFIED PROCEDURE
NOTICE OF SUSPENSION OF PROPOSED EFFECTIVE DATE
ORDER NO. 36944

YOU ARE FURTHER NOTIFIED that the Company has “substantial doubt regarding the prudence of the expense of an EM&V study on the Whole Home Tier I measure,” given the uncertainty of participation levels sufficient to produce statistically significant results and the Company’s prediction that the rebate measure will not be cost-effective under a billing analysis approach. *Id.* Therefore, the Company requests (1) Commission authorization to retire the Whole Home Tier I measure and (2) a declaration that the Company is no longer required to produce an EM&V study with a billing analysis for the Whole Home Tier I measure in its next energy efficiency prudence filing. *Id.* at 5.

YOU ARE FURTHER NOTIFIED that the Application is available for public inspection during regular business hours at the Commission’s office. The Application is also available on the Commission’s website at www.puc.idaho.gov. Click on the “NATURAL GAS” icon, select “Open Cases,” and click on the case number as shown on the front of this document.
