On September 30, 2025, Intermountain Gas Company ("Company"), filed Tariff Advice No. INT-TAG-25-03 ("Tariff Advice") requesting authority from the Idaho Public Utilities Commission ("Commission") to revise Section C of its General Service Provisions, Installation and Extension of Natural Gas Mains and Services for Residential and Commercial Customers. The Company's Tariff Advice proposed to update the Allowable Investment Factors, the Service Line Cost per Foot, and the construction overhead charges in accordance with Commission Order No. 34735. At the Commission's Decision Meeting on October 21, 2025, Commission Staff ("Staff") presented a Decision Memorandum recommending the Commission accept the Company's proposed tariff revisions. The Company proposed an effective date of December 1, 2025.

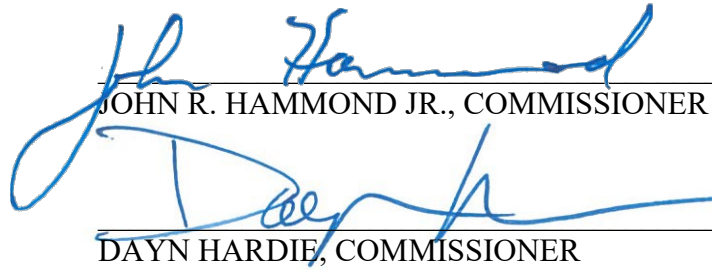

Commission Rule of Procedure 134.02 directs that no tariff advice will be effective unless the public and the Commission have been notified pursuant to applicable sections of Title 61 of the Idaho Code. IDAPA 31.01.01.134.02. Additionally, no tariff advice takes effect on less than 30 days' notice, "unless the Commission finds good cause to approve the earlier effective date." *Id.*

Having reviewed the record and finding the notice of the Company's proposed Tariff Advice meets the requirements of Rule 134.02, the Company's Tariff is approved, as filed, effective as of December 1, 2025.
