**BACKGROUND**

On July 12<sup>th</sup> and 13<sup>th</sup> Staff conducted negotiated rulemaking sessions with stakeholders. Pursuant to I.C. § 67-5220(3)(f), Commission Staff provided a written summary of any unresolved issues, key information considered, and conclusions reached during and as a result of the negotiated rulemaking.

The Negotiated Rules were updated based on public comments and were published as Proposed Rules in the October 4, 2023 Administrative Bulletin, with no public meetings scheduled.

Comments were received relating to the Gas Service Rules to make technical corrections. Those changes have now been incorporated into the Rule after discussions with Commission Staff.

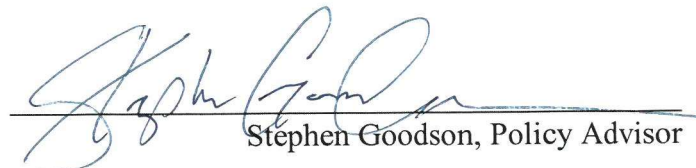

These rules are now ready to be adopted by the Commission as Pending for review by the 2024 Legislature for final approval.

**STAFF RECOMMENDATIONS**

Staff recommends the Commission direct Staff to submit the necessary forms to publish a Notice of Rulemaking - Adoption of Pending Rule in the Administrative Bulletin.

**COMMISSION DECISION**

Does the Commission wish to approve Staff's recommendations? Anything else?
