## **Commission hires new telecommunication relay service administrator**

The Idaho Public Utilities Commission has hired a new administrator for its Telecommunications Relay Service (TRS) Fund. The Commission has hired Kathleen “Kelli” Toohill as its new administrator. Kelli has experience working for Utah’s TRS program and has worked with deaf and hard of hearing individuals in Utah, Montana and Wyoming in the past.

Kelli replaces the Commission’s long serving and original TRS administrator Bob Dunbar. The Commission would like to extend its thanks to Mr. Dunbar for the long and dedicated service to Commission and the citizens of Idaho.

The TRS allows hearing and speech impaired citizens to use telephones via a relay center that converts oral conversation to text-type and vice versa.
