**NEWS RELEASE:** Commission sets deadline to submit written comments for proposed service territory agreement.

**BOISE (July 23, 2025)** – The Idaho Public Utilities Commission has set a mid-August deadline to submit written comments for a proposed service territory agreement between two southern Idaho utilities.

Riverside Electric Company and East End Mutual Electric have had a territory agreement for some time. The agreement predates an amendment to Idaho code that requires commission approval of the agreements. The utilities are seeking commission approval of a written memorialization of the existing territory agreement. The agreement was negotiated between the utilities to settle a service territory, provide for stable service to customers, eliminate duplication of services and ensure safety in their respective territories.

Those types of agreements have been approved by the commission in the past as long as they don't violate the Electric Supplier Stabilization Act. It is intended to promote harmony between electric suppliers, prohibit the pirating of customers, discourage duplication of electric facilities and stabilize service territories, among other items.

Written comments are being accepted until Aug. 14, 2025. Comments are required to be filed through the commission's website or by e-mail unless computer access is not available.
