NEWS RELEASE: Natural Gas Utility Files Application Seeking Rate Changes

BOISE (Aug. 27, 2026) – The Idaho Public Utilities Commission is accepting written comments through Sept. 15, 2026, on an application submitted by Intermountain Gas seeking to change the rates it charges customers for natural gas service.

The utility's rates include two components. The base rate component is designed to recover the utility's fixed costs of serving customers and generally remains unchanged. The purchased gas cost adjustment (PGA) is a Commission-approved mechanism that adjusts rates up or down to reflect changes in the utility's costs of purchasing natural gas from suppliers, including changes in transportation, storage and other related costs. Intermountain Gas defers these costs to its PGA account and passes them on to customers through corresponding increases or decreases in rates.

If the utility's application is approved by the Commission as filed, a typical residential customer will see a monthly decrease of \$1.46, or 3.25 percent. On average, commercial customers will see a monthly decrease of \$8.22, or 4.25 percent. Large volume customers, on average, will see a monthly decrease of \$1,549.99, or 11.32 percent.

The Commission is accepting written comments on the utility's application through Sept. 15, 2026. Comments are required to be filed through the Commission's website or by email unless computer access is unavailable. To submit comments online, visit puc.idaho.gov and click on the "Case Comment Form" link on the upper left side of the homepage. Please reference case number INT-G-26-04 when submitting comments.

Comments submitted by email should be sent to the email addresses listed below. Commenters must include their name, address and case number INT-G-26-04. If computer access is unavailable, comments may be mailed to the addresses listed below and must include the commenter's name, address and case number INT-G-26-04 in correspondence.
