

# RSS Guide Opera

Creating an RSS Feed while using the Opera browser requires the use of a browser extension to use. In this guide we will go over how to acquire an RSS extension and subscribe to an RSS Feed.

## Step 1: Go to the Opera Add-On and find RSS Extension

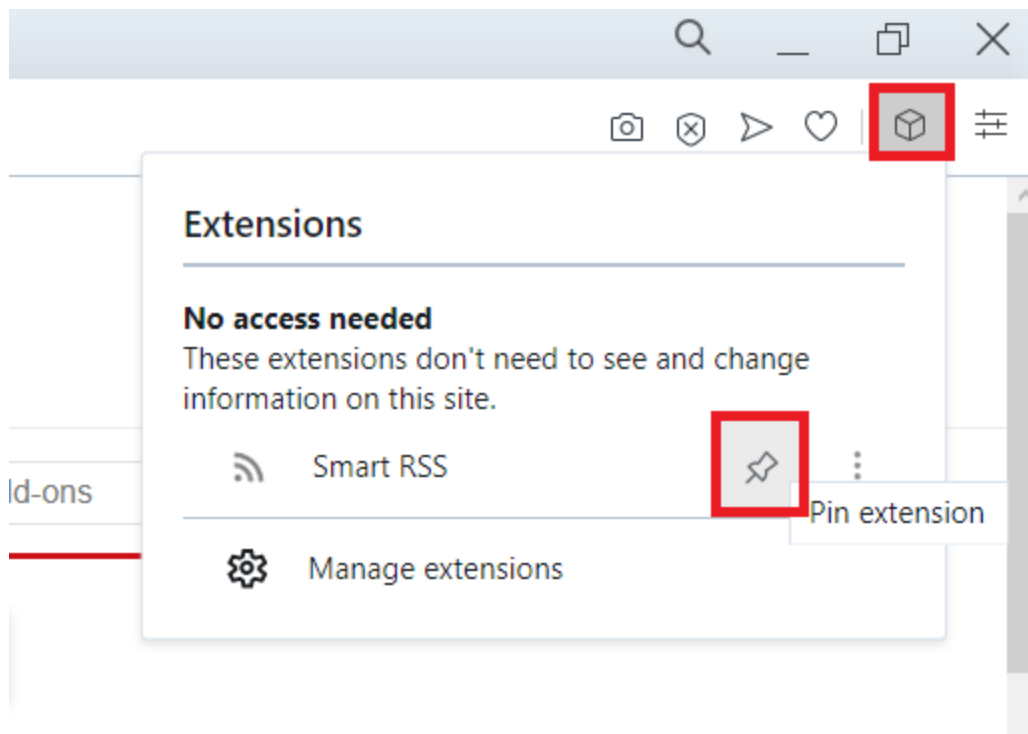

Go to the [Opera Add-Ons](#) webpage. Click on the hyperlink in the previous sentence to go there, or find it by searching it in Google or any other search engine. Search for the add-on “Smart RSS”. There are multiple RSS Extensions in the Opera Add-Ons page that will work, but we recommend this one. Click the button highlighted in red called “Add to Opera” to install.

The screenshot shows the Opera Add-ons webpage for the "Smart RSS" extension. The page has a header with the Opera Add-ons logo and navigation links for Extensions, Wallpapers, and Develop. A search bar is located in the top right corner. The main content area displays the extension details for "Smart RSS" by BS-Harou. It includes a star rating of 4.5/5, a "Your rating" section with five stars, and a "Total number of ratings: 215". A red "Add to Opera" button is prominently displayed. Below the extension name, there is a description: "Smart RSS is an extension that clones (in a bit mutated way) RSS reader from Opera 12." and a note about reporting issues. The page also lists the extension's features, such as using IndexedDB to store data and installing the RSS Detector extension. A "Show more" link is provided. The "About the extension" section lists statistics: Downloads: 194,300, Category: Productivity, Version: 2.2.1, Size: 241.4 KB, Last update: Feb. 11, 2016, License: Copyright 2016 BS-Harou, Support page: http://blog.martinkadlec.eu/post/50..., and Source code page: https://github.com/BS-Harou/. The "Related" section shows two other extensions: "Enhancer for YouTube" and "Open in PDF Reader". A "Screenshots" section at the bottom shows a preview of the extension's interface, which includes a search bar and a list of feeds.

## Step 2: Pin “Smart RSS” for convenience

This step is optional, but useful if you wish to stay up-to-date with all Public Utilities Commission updates. To pin an extension so that it’s easier to see, click the box icon on the top-right hand corner of the screen by the search bar, currently highlighted in red. A list of Extensions should now appear. Click on the pushpin icon next to the “Smart RSS” so that it turns solid blue and not a grey outline, as highlighted in red below. This will make the “Smart RSS” icon show up next to the box icon for greater convenience.

### Step 3: Open Smart RSS Extension

Once the Add-On is installed, go back to the [PUC RSS Page](#). Do not click the link, as Opera will not understand what to do with the RSS Feed as shown in this image.

Instead, copy the link of the RSS Feed you are interested in. You can do this by either highlighting the line and pressing the “Ctrl” + “c” keys on your keyboard, or right-clicking the mouse button and selecting “Copy” or “Copy link address” from the menu. Your computer will now save this link.

## RSS Feeds

- Open link in new tab
- Open link in new window
- Open link in private window
- Open link in workspace
- Copy link address
- Save linked content as...
- Add link to bookmarks
- Inspect element Ctrl+Shift+C
- Send link to My Flow

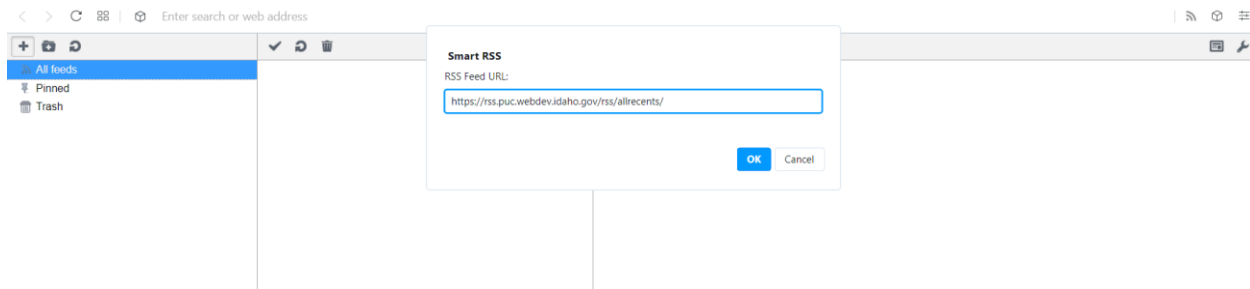

### Step 4: Open Smart RSS Extension

Once the Add-On is installed, a pin should appear on the top-right of the screen as is highlighted in the image. Click on that, and you should be brought to this “Smart RSS” screen. To add a new RSS Feed for the “Smart RSS” extension, click on the “Add RSS Source” button highlighted in red at the top-left hand side of the screen.

### Step 5: Add RSS Feed

A pop-up will appear, asking for information about the new RSS Feed to be added. Paste the link on your computer saved in the “RSS Feed URL” text input. Next, click the “OK” button below.

## Step 6: Confirm that you are following RSS Feed

Congratulations! You are now subscribed to the RSS Feed. At any time you can view all RSS Feed updates from the Public Utilities Commission by clicking on the “Smart RSS” extension as shown below. Click the pinned extension, highlighted in red on top-right hand of the screen, to go to the “Smart RSS” webpage. The list will show you all recent RSS Feed updates. Clicking on any individual item in the list will bring you to the Public Utilities Commission webpage with more information related to that item.
