1.0 DEFINITIONS

The following words and terms when used in this price list shall have the meaning set out by this section.

Access Lines: Telephone facilities which permits access to and from the Customer's premises and the telephone exchange or serving central office.

Advance Payment: A payment required before the start of service. Advanced payment may consist of any required construction cost, all appropriate non-recurring charges, and an estimate of the first month's recurring charges. Advance Payments will be applied to the first bill rendered by Company following implementation of services.

Agent: A business representative authorized by the Company to bring about, modify, affect, accept performance of, or terminate contractual obligations between the Company and its applicants or Customers.

Applicant: A person who applies for telecommunications service. Includes persons seeking reconnection of service after Company-initiated termination.

Application: A request made in writing for telephone service.

Authorized User: A person, firm or corporation that is authorized by the Company to be connected to the service of the Customer or joint user.

Automatic Number Identification (ANI): The automatic transmission of a calling party's billing account telephone number to a local exchange Company, interexchange carrier or a third party subscriber. The primary purpose of ANI is for billing of toll calls.

Basic Rate Area: A specific geographic area, within which the schedule rates for local exchange service apply without exchange line mileage and without special rates in lieu of mileage.

Central Office: Company facilities where subscriber lines are connected to each other through switching equipment for placing local and long distance telephone calls.

Company or Name of Company: ALEC, Inc.

1.0 DEFINITIONS (Cont'd)

Customer or Subscriber: The person, firm or corporation that orders service and is responsible for the payment of charges for that service and for compliance with the Company's regulations related to that service.

Nonlisted Service: A directory listing service wherein a Customer is not listed in the published directory, but is listed in the directory assistance database.

Nonpublished Service: A directory listing service wherein a Customer is not listed in the published directory or in the directory assistance database.

Recurring Charges: The charges to a Customer for services, facilities and equipment, which recur monthly for the agreed upon duration of the service.

Residential Service: Telephone Service provided to customers when the actual or obvious use is for domestic purposes.

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless the Customer refuses to accept service because it does not conform to the standards set forth in the Service Order or in this price list, in which case the Service Commencement Date is the date on which the Customer accepts service. The Company and the Customer may agree on a substitute Service Commencement Date.

Service Order: The written order for Services executed by the Customer and the Company in the format devised by the Company. The signing of a Service Order by the Customer and acceptance by the Company initiates the obligations of the respective parties as set forth therein and pursuant to this price list; except that the duration of the service is calculated from the Service Commencement Date.

Shared: A facility or equipment system or subsystem that can be used simultaneously by several Customers.

Small Business Service: Telephone service provided to businesses with five (5) or fewer lines.

2.0 REGULATIONS

2.1 Undertaking of the Company

2.1.1 Scope

2.1.1.2 The Company undertakes to furnish local exchange communications service pursuant to the terms of this price list.

2.1.1.2 The services offered herein may be used for any lawful purpose. There are no restrictions on sharing or resale of the Company's services. However, the Customer remains liable for all obligations under this price list even if such sharing or resale arrangements exist regardless of the Company's knowledge of these arrangements. If service is jointly ordered by more than one Customer, each is jointly and severally liable for all obligations.

2.1.1.3 The services the Company offers shall not be used for any unlawful purposes or for any use for which the Customer has not obtained all required governmental approvals, authorizations, licenses, consents and permits.

2.1.1.4 Company services may be connected to the services or facilities of other communications carriers only when authorized by and in accordance with the terms and conditions of any price lists of such other communications carriers.

2.1.1.5 The services of the Company are furnished for the transmission of voice communications but may also be used for data, facsimile, signaling, metering, or other similar communications, subject to the transmission capabilities of the technologies or combination of technologies available. Service is available twenty-four hours a day, seven days a week.

2.0 REGULATIONS (Cont'd)

2.2 Shortage of Equipment or Facilities

The furnishing of service under this price list is subject to the availability on a continuing basis of all facilities necessary to provide the service. Services will be provided using a combination of the Company's facilities and/or the resale of other carrier facilities.

2.3 Selection of Transmission

The Company selects and/or arranges for the channels and/or service components and underlying network facilities used to provide service. The Company may modify or change the channels, service components and underlying Company facilities or the underlying carrier at any time subject to Part 68 of the FCC's Rules and Regulations and this price list.

2.4 Notification of Service-Affecting Activities

The Company will provide the Customer with reasonable notification of service-affecting activities that may occur during the normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventive maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service-affecting activities. The Company will work cooperatively with the Customer to determine reasonable notification requirements. Notification to the Customer may not be possible with some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage.

2.5 Provision of Equipment and Facilities

2.5.1 The Company shall make a reasonable effort to provide service to a Customer on or before a particular date, subject to the provisions of and compliance by the Customer with the regulations contained in this price list.

2.5.2 The Company shall make a reasonable effort to maintain facilities that it furnishes to the Customer. The Customer shall not, and the Customer shall not permit others to, rearrange, disconnect, remove, attempt to repair or otherwise interfere with any of the facilities installed by the Company, except upon the written consent of the Company.

2.0 REGULATIONS (Cont'd)

2.6 Terms and Conditions

2.6.1 Service is provided on a minimum term basis of at least one month, using 24-hours per day for each day of the month. For purposes of this price list, a month is considered to have thirty days. All calculations of dates set forth in this price list shall be based on calendar days, unless otherwise specified herein.

2.6.2 This price list shall be interpreted and governed by the laws of the State of Idaho and the Rules issued by the Idaho Public Utilities Commission.

2.7 Non-routine Installation and Special Construction

2.7.1 Non-Routine Installation

At the Customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material, or other costs incurred by or charged to the Company will apply.

2.7.2 Special Construction

Subject to the agreement of the Company, special construction of facilities may be undertaken on a reasonable effort basis at the request of the Customer. Special construction may include that construction undertaken:

- (a) where facilities are not presently available;
- (b) of a type other than that which the Company would normally utilize in the furnishing of its service;
- (c) over a route other than that which the Company would normally utilize in the furnishing of its services;
- (d) in a quantity greater than that which the Company would normally utilize in the furnishing of its services;
- (e) on an expedited basis;
- (f) on a temporary basis until permanent facilities are available;
- (g) involving abnormal costs; or
- (h) in advance of normal construction.

2.0 REGULATIONS (Cont'd)

2.7 Non-routine Installation and Special Construction (Cont'd)

Special construction will be undertaken at the discretion of the Company consistent with budgetary responsibilities and consideration for the effect on Company's other Customers and contractual responsibilities.

2.7.3 If required by the Company, the Customer shall make an advance payment before services are furnished and such advance payment will be credited to the Customer's initial bill. The Company may require such an advance payment, in addition to a deposit, when additional costs are incurred to perform special or extraordinary construction to provide services required by the customer.

2.8 Ownership of Facilities

Title to all facilities and equipment, and related plans and proposals, provided by the Company in furnishing service remains with the Company, its agents or contractors. Such facilities and equipment, plans and proposals shall be returned to the Company by the Customer whenever requested, within a reasonable period following the request and in as good condition as reasonable wear will permit.

2.9 Rights-of-Way

Provisioning of the Company's services is subject to and contingent upon the Company's ability to obtain and maintain rights-of-way and access to public and private property necessary for installation of the facilities used to provide the Company's services to the Customer's service point as agreed to by the Company.

2.0 REGULATIONS (Cont'd)**H. With respect to Emergency Number 911 Service:**

1. This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies. The Company is not responsible for any losses, claims, demands, suits or any liability whatsoever, whether suffered, made instituted or asserted by the Customer or by any other party or person for any personal injury or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused by: (1) mistakes, omissions, interruptions, delays, errors or other defects in the provision of service, of (2) installation, operation, failure to operate, maintenance, removal, presence, conditions, local or use of any equipment and facilities furnishing this service.
2. Neither is the Company responsible for any infringement, nor invasion of the right of privacy or any person or persons, caused or claimed to have been caused directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, conditions, occasion or use of emergency 911 service features and the equipment associated therewith, or by any services furnished by the Company, including, but not limited to the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing emergency 911 service, and which arise out of the negligence or other wrongful act of the Company, the Customer, its users, agencies or municipalities, or the employees or agents of any one of them.
3. When a Customer with a nonpublished telephone number, as defined herein, places a call to emergency 911 service, the Company will release the name and address of the calling party, where such information can be determined, to the appropriate local governmental authority. By subscribing to service under this rate sheet, the Customer acknowledges and agrees with the release of information as described above.

2.13 Allowances for Interruptions in Service (Cont'd)

2.13.2 Limitations on Allowances (Cont'd)

2.13.2.2 interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions;

2.13.2.3 interruptions of service during a period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements; or

2.13.2.4 interruption of service due to circumstances or causes beyond the control of the Company and affecting large groups of customers.

2.14 Obligations of the Customer

2.14.1 The Customer shall provide at no charge, as specified by the Company, any personnel, equipment, space, power, heating and air conditioning needed to operate, and maintain a proper operating environment for the Company's facilities and equipment installed on the Customer's premises.

2.14.2 Upon suitable notification to the Customer, and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the Customer is complying with the requirements set forth herein for the installation, operation, and maintenance of Customer-provided facilities, equipment, and wiring in the connection of Customer-provided facilities and equipment to Company-owned facilities and equipment.

2.14.3 If the protective requirements for Customer-provided equipment are not being complied with, the Company may take such action as it deems necessary to protect its facilities, equipment, and personnel. The Company will notify the Customer promptly if there is any need for further corrective action. Within ten days of receiving this notice, the Customer must take this corrective action and notify the Company of the action taken. If the Customer fails to do this, the Company may take whatever additional action is deemed necessary, including the suspension of service, to protect its facilities, equipment and personnel from harm.

2.0 REGULATIONS (Cont'd)

2.15 Prohibited Uses

The Customer shall not use or allow the use of the Company's facilities or equipment installed at the Customer's premises for any purpose other than that for which the Company provides it, without the prior written consent of the Company.

2.15.1 Abuse

The abuse of Company Services is prohibited. Abuse includes, but is not limited to, the following activities:

(a) Using service to make calls that might reasonably be expected to frighten, torment, or harass another.

(b) Using service in such a way that it interferes unreasonably with the use of Company services by others.

2.15.2 Fraudulent Use

The fraudulent use or the intended or attempted fraudulent use of service is prohibited and can result in the discontinuance of services as set out by this price list. Fraudulent use consists of using or attempting to use service with the intent to avoid the payment, either in whole or in part, of the price listed charges for the service including but not limited to:

(a) rearranging, tampering with, or making connections not authorized by this price list to any network components used to furnish service; or

(b) using fraudulent means or devices, tricks, schemes, false or invalid numbers, false credit devices, or electronic devices.

2.16 Payments

2.16.1 Customer Obligations

2.16.1.1 The Customer shall pay outstanding charges in full within thirty (30) days of the invoice date. Charges normally will be invoiced in arrears, with monthly recurring charges invoiced on or about the first of the month for which the charges apply. Amounts not paid within thirty (30) days after the date of the invoice are considered delinquent.

2.16.1.2 The Customer shall pay all charges for use of the service by any persons whether or not authorized by the Customer, except in those instances where it has been determined that the Customer's present and former employees, agents and authorized users were not responsible for calls billed to the Customer via third party billing and the Company did not verify that the charges for the call would be accepted. The Customer is not responsible for unauthorized use of service to the extent such use is proximately caused by the Company's willful or negligent act.

2.16 Payments (Cont'd)

2.16.2 Disputed Bills

2.16.2.1 Any Customer who disputes a portion of a bill rendered for Company services shall pay the undisputed portion of the bill and notify the Company that such unpaid amount is in dispute within thirty (30) days of receipt of the bill. If such notice is not received by the Company within thirty (30) days as indicated above, the Company shall consider the bill statement to be due and payable in full by the Customer. Payment of the amount due by the Customer does not constitute a waiver of the Customer's rights under the provisions of IDAPA 31.41.01.204 to challenge any billing amount due or paid to the Company.

2.16.2.2 In the event a Customer and the Company cannot resolve a billing dispute to their mutual satisfaction, the Customer may contact the Idaho PUC and proceed in accordance with the Idaho PUC's Rules. The address and telephone numbers for the Idaho PUC are:

2.16.3 Payment Arrangements

2.16.3.1 When a Customer cannot pay a bill in full, the Company may continue to serve the Customer if the Customer and the Company agree on a reasonable portion of the outstanding bill to be paid immediately, and the manner in which the balance of the outstanding bill will be paid.

2.16.3.2 In deciding on the reasonableness of a particular agreement, the Company will take into account the Customer's ability to pay, the size of the unpaid balance, the Customer's payment history and length of service, and the amount of time and reasons why the debt is outstanding.

2.16.3.3 Payments are to be applied to the undisputed balance owed by the Customer. A Customer may designate how a payment insufficient to pay the total balance due shall be applied. If applicable, and in the absence of instructions from the Customer, a partial payment shall be allocated first to local exchange services. Such payments shall be applied first to the oldest undisputed balances.

2.16.3.5 If a Customer fails to make the payment agreed upon by the date that it is due, the Company may, but is not obligated to, enter into a second payment arrangement.

2.16.3.7 A Customer's failure to pay for undisputed MTS charges billed by the Company may result in loss of 0+, 0- and 1+ dialing access to MTS services until such time as the customer pays the undisputed charges and applicable reconnection charges, if any.

2.16.3.8 Customer failure to pay undisputed charges for other services may result in discontinuance of those services.

2.19 Refusal or Termination of Services (cont'd)

2.19.4 Notice of Disconnection

2.19.4.1 Seven-Day Notice

Except as otherwise provided under the provisions of IDAPA 31.41.01.303.04 and 31.41.01.305, the Company will mail to the Customer written notice of termination at least seven (7) calendar days before the proposed date of termination. The written notice will contain the information required by IDAPA 31.41.01.306.

2.19.4.2 Twenty-Four-Hour Notice

At least twenty-four (24) hours before actual termination, the Company will diligently attempt to contact the Customer affected to apprise the Customer of the proposed action and the steps to take to avoid or delay termination. Oral Notice will contain the same information as required by IDAPA 31.41.01.306.

2.19.4.3 Additional Notice

If the Company does not terminate service within seven (7) days after a proposed termination date, and the matter is not the subject of a pending complaint before the Idaho PUC, or if other arrangements have not been made with the Customer, the Company will again make a diligent effort to contact the Customer to advise the Customer of the proposed action. If the Company has not terminated service within twenty-eight (28) days of mailing a written notice of termination, but still intends to terminate, the Company will again issue a written notice as set out by subsection 2.19.4.1 of this price list, related to Seven-Day Notice.

2.19.5 Customer Cancellation of Service

If the Customer cancels a service order or terminates service before the completion of the term of service specified in the service order for any reason, the Customer agrees to pay to the Company all costs, fees, and expenses reasonably incurred in connection with special construction and with the term of service. In addition, the Customer may be liable for termination charges up to a maximum amount equal to the total charges applicable for the remaining term specified in the service order.

3.0 LOCAL EXCHANGE SERVICES

3.1 General

Local Exchange Services provides the Customer with connection to the public switched telecommunications network. In addition, Local Exchange Service provides the Customer with a unique telephone number address on the public switched telecommunications network. Each Local Exchange Service enables the Customer to:

- (a) receive calls from other stations on the public switched telecommunications network;
- (b) access other services offered by the Company as set forth in this price list;
- (c) access certain interstate and international calling services provided by the Company;
- (d) access the Company's operators and business offices for service related assistance;
- (e) access emergency services by dialing 0- or 9-1-1; and

(f) access services provided by other common carriers which purchase the Company's Switched Access Services as provided under the Company's Federal and State price lists or price list, or which maintain other types of traffic exchange arrangements with the Company.

3.2 Service Descriptions

3.2.1 Business Service

Call Timing for Usage Sensitive Services

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

Calls are measured in durational increments identified for each service. All calls which are fractions of a measurement increment are rounded up to the next whole unit.

Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).

Timing terminates on all calls when the calling party hangs up or the Company's network receives an off-hook signal from the terminating carrier.

3.0 LOCAL EXCHANGE SERVICES (Cont'd)

3.3 Local Exchange Service

Local Exchange Service provides the customer the ability to complete local and long distance calls. The Company concurs in the local calling areas defined in the local exchange tariff of the incumbent local exchange company for the geographic area being served. This service provides the customer with unlimited local calling.

3.3.1 Optional Features

Anonymous Call Rejection – An arrangement that allows a called party to block calls from parties that have marked their calls “private.” Customers may activate or deactivate this arrangement by dialing a preassigned activation code. There is no charge for this feature.

Call Forwarding – Permits a Customer to transfer all incoming calls to another telephone number. The Customer pre-selects a second telephone number to which all incoming calls are to be transferred automatically. Call Forwarding shall not be used to extend calls on a planned or continuing basis to intentionally avoid the payment in whole or in part, of message toll charges that would regularly be applicable between the access line originating the call and the access line to which the call is transferred. Customers utilizing Call Forwarding service are responsible for the payment of charges for each toll call between his access line and the distant access line to which the call was transferred.

Call Return – Enables a Customer to automatically return the last incoming call. To return the call, the Customer dials a specified code and the number is dialed automatically. If the called line is busy, a 30-minute queuing process begins. The Customer is then given an indication that the network will attempt to set up the call when the called line is idle.

Call Waiting – By means of a tone signal, a Customer who is using his telephone is alerted when another call is trying to reach that telephone number. This service permits putting the first call on hold so that a second call can be answered.

3.3.1 Optional Features (Cont'd)

Caller ID – This feature delivers calling party information to parties being called. Caller ID will indicate the name and directory number of the calling party or may indicate that the number of the calling party is private or unavailable. Customer provided equipment is required to utilize this feature.

Calling Number Delivery Block – Allows a Customer to make all calls with the delivery of the calling number identification marked as “private” to all outgoing calls placed over the specified line. This feature will be offered at no charge.

Repeat Dialing – An arrangement, which permits the Customer to redial automatically the last number dialed. If the called line is busy, a 30-minute queuing process begins. The Customer is then given an indication that the network will attempt to set up the call when the called line is idle.

Speed Calling – Enables a Customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. A Customer may subscribe to either the 8-code capacity or 30-code capacity on their line.

Three Way Calling – Enables a Customer to add a third party on an existing call without operator assistance, thereby establishing a three-way conversation. The transmission quality may vary depending on the distance and routing necessary and may not necessarily meet normal standards.

Toll Restriction – Restricts associated line from reaching dialing codes required to access long distance carrier networks to place long distance calls.

3.3.2 Directory Listings

The Company will arrange for the listing of the customer's main billing number in a directory of general circulation at no additional charge. At the customer's option the Company will arrange for additional listings in such directory for an additional charge. The rates for directory listings apply only to the alphabetical section of the directory. Listings are intended solely for the purpose of identifying the customer's telephone number as an aid to the use of telephone service.

3.3.3 Directory Assistance Service

Directory Assistance Service is furnished upon customer request for assistance in determining telephone numbers. The customer may request a maximum of two listings per call. A charge applies to each call to Directory Assistance, except that calls made to Directory Assistance by customers who have received Company certification as being unable to use a telephone directory will be exempt from the Directory Assistance charge. The customer has the option of having the call automatically completed to the requested number.

3.3.4 Operator Assisted Services

Operator Assisted Service is provided to customers on a presubscribed basis. Operator Assisted Service is also provided to customers and users of exchange access lines that are presubscribed to the Company's interexchange outbound calling services. Various billing arrangements are available with the Company's Operator Assisted Service including Operator Station, Collect, Billed to Third Party, other Operator Assisted and Person-to-Person. Collect calls to coin telephones and transfers of charges to third telephones which are coin telephones will not be accepted.

3.3.5 Busy Line Verification and Interrupt Service

Upon request of a calling party, the Company will attempt to verify a busy condition on a called line using Local Exchange Service by Company. The Operator will determine whether the line is clear or in use and report its status to the calling party. The operator will interrupt the call on the called line only if the calling party indicates an emergency and requests interruption. Busy Line Verification and Interrupt Service is furnished where and to the extent that facilities permit. The customer shall indemnify and hold the Company harmless against all claims that may arise from either party to the interrupted call or any person. A charge will apply when the operator verifies that the line is busy with a call in progress, the operator verifies that the line is available for incoming calls; or the operator verifies that the called number is busy with a call in progress and the customer requests interruption. The operator will then interrupt the call, advising the called party of the name of the calling party. No charge will apply when the calling party advises that the call is to or from an official public emergency agency.

3.3.6 Emergency Telephone Number Service (911, E911)

Emergency Telephone Number Service allows customers to reach emergency services including police, fire and medical services. Subject to availability, Enhanced 911 has the ability to selectively route an emergency call to the primary E911 provider. In addition, the customer's address and telephone information will be provided to the primary E911 provider for display at the Public Service Answering Point (PSAP).

3.3.7 Direct Inward Dial (DID) Service

DID Service is an optional feature which can be purchased in conjunction with the Company-provided ISDN PRI Service. Charges for DID capability and DID number blocks apply in addition to charges specified for PRI Service. The Company reserves the right to limit the amount of DID numbers constituting a block of telephone numbers in a group. Blocks of number groups will be determined at the sole discretion of the Company's resources. In addition, the Company reserves the right to review vacant DID stations or stations not in use to determine efficient telephone number utilization. Should the Company determine, based on its own discretion, that there is inefficient number utilization, the Company may reassign the DID numbers. The customer has no property rights to the telephone number or any other call number destination associated with DID service furnished by the Company, and no right to the continuance of service through any particular end office. The Company reserves the right to change such numbers, or the end office designation associated with such numbers, or both, assigned to the customer, whenever the Company deems it necessary to do so in the conduct of its business.

3.4 ISDN Primary Rate Interface (PRI) Service

3.4.1 General

PRI provides an ISDN based, DS1 access to the telecommunications network and includes the flexibility of integration of multiple voice and/or data transmissions channels on the same line. The basic channel structure for PRI service is a 23 64 Kbps B-Channels and one 64 Kbps D-Channel. The customer has the option to activate up to 23 B-Channels on the first PRI service arrangement and up to 24 channels on additional PRI arrangements.

PRI service provides capability for the transmission of digital signals only.

PRI service is provided where appropriate ISDN facilities are available as determined by the Company. Special Construction charges may apply as specified in this tariff.

Interoffice channels will be charged at rates based on airline distance between applicable locations. Fractional mileage shall be rounded up to the next full mile.

3.4 ISDN Primary Rate Interface (PRI) Service (Cont'd)

The required components for PRI service are as follows:

PRI Access Line
Interoffice Channels
PRI Interface
PRI B-Channels
PRI D-Channels
Telephone Numbers as specified in this Tariff

PRI B-Channel rates are listed in Section 5 of this Tariff. Exchange access is included as a part of the B-Channel rate and is offered on a flat rate basis.

Voice calls on the B-Channel may be completed to both ISDN and non-ISDN lines.

Data transmission on the B-Channel will be circuit switched at 64 Kbps within the switch and between ISDN compatible central offices. ISDN interconnection and non-ISDN equipped locations may be subject to analog transmission or sub-rated to 56 Kbps.

Primary Rate ISDN is characterized by the following: It is arranged for inward service only. Originating calls will be denied. It is arranged to terminate analog and digital data calls only. The number of telephone numbers associated with an ALEC Primary Rate ISDN arrangement must be equal to, or less than, the number of PRI Interfaces comprising the arrangement and all numbers must use the same routing unless the customer subscribes to additional numbers. DNIS and Hunting are inherent to the service.

ALEC Primary Rate ISDN Extended Reach Service (ERS) is designed to "extend the reach" of the PRI from a centrally located metropolitan local calling area into areas of the LATA which are "non-local" to the metropolitan area. Customer must purchase telephone numbers within each desired "non-local" calling area to allow their clients to call them without incurring intraLATA Long Distance Message Telecommunications Service charges.

3.4.2 Regulations

A termination liability charge is applicable if service is terminated prior to expiration of the contract. The applicable charge is dependent on the contract period and will be equal to the number of months remaining in the contract times the monthly rate provided under the contract. The minimum subscription period for which month-to-month PRI service is furnished and for which charges are applicable is one month. CPE that is compatible with PRI service interface is the responsibility of the customer. Suspension of service is not allowed.

3.4.3 Definitions

D-Channel – a 64 KBPS digital signaling only channel for call establishment when used with PRI service.

Digital Data Only B-Channel – The term “Digital Data Only B-Channel” denotes a bi-directional synchronous channel capable of supporting 64 Kbps of digitally transmitted data mode calls when provisioned by ALEC Primary Rate ISDN-Digital Data Only option.

Extended Reach Service Remote Telephone Number (ERS RTN) – Telephone numbers assigned to each local calling area to which the Extended Reach subscriber provides local number access.

Inward Call – a call that is switched through the public telephone network and terminates in a PRI service arrangement.

Outward Call – A call that originates on a PRI service arrangement and is switched through the public switched telephone network.

PRI Service Access Line – a four-wire access loop from the serving wire center to the customer premises. The transmission characteristics of this loop must support Clear Channel Capacity and Extended Superframe Format (ESF) when the customer provides this access line.

3.4.3 Definitions (Cont'd)

PRI Service B-Channel – a circuit-switched service that will allow either voice or data transmission at up to 64 Kbps and will include the functionality of hunting and calling/called number delivery.

PRI Service D-Channel – A 64 Kbps digital signaling-only channel for call establishment and control.

PRI Service Interface – provides multiplexing to support up to 23 B-Channels at 64 Kbps and one D-Channel for signaling also at 64 Kbps. When NFAS is ordered, the PRI Service Interface can provide up to 24 B-Channels at 64 Kb ps. One PRI Service Interface is required for each PRI Service Access Line.

3.4.4 Multi-Line Pricing

If Customer purchases more than one PRI Access Line to the same location, Customer may elect to receive discounted pricing for Interfaces and for B-Channels. Under such pricing, Customer may receive one Interface and up to 23 B-Channels for a single rate set forth in the rate section of this Tariff, rather than the per-Interface and per-B-Channel rates. Applicable non-recurring rates remain one per Interface and per B-Channel.

3.4.5 Public Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate calls that originate from any pay telephone used to access Company provided services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company provided service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any re-originated call (e.g., using the "#" symbol). The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

3.5 Idaho Telecommunications Service Assistance Program (ITSAP)

ITSAP is a program that provides eligible recipients with a reduction in costs of residential basic local exchange telephone service. Eligibility is established by the Idaho Department of Health and Welfare and the funds for the program are raised through a surcharge on all end-user business, residential and wireless lines. The Commission determines the uniform statewide monthly surcharge and the Idaho Department of Health and Welfare administers the program in conjunction with the federal Lifeline and Linkup programs.
