**APPLICATION FOR A CERTIFICATE OF PUBLIC CONVENIENCE AND
NECESSITY TO PROVIDE NON-FACILITIES BASED RESOLD LOCAL EXCHANGE
TELECOMMUNICATIONS SERVICES**

Pursuant to IDAPA 31.01.01.114 and Order No. 26665 issued November 7, 1996, Fybercom LLC dba Fybercom, State of Idaho (“Fybercom” or “Applicant”) respectfully requests that the Idaho Public Utilities Commission (“Commission”) grant Fybercom a Certificate of Public Convenience and Necessity to provide non-facilities based resold local exchange telecommunications services within the State of Idaho.

In support of its Application, Fybercom submits the following:

1. Name, Address, Form of Business

i. A short statement of the character of public service in which the entity is engaged.

Fybercom intends to offer competitive local exchange services to business customers, including exchange access service, within the State of Idaho, using resold services provided pursuant to a resale arrangement that will be entered into between Fybercom and the Idaho ILEC CenturyLink and/or its affiliates following action on this Application by the Commission. Fybercom also provides residential and business broadband services using its own facilities or a combination of its facilities and leased facilities.

ii. The entity’s name (including any assumed business name) and the state in which it is incorporated or organized.

Fybercom LLC, dba Fybercom, State of Idaho

iii. The street and mailing addresses of the entity’s principal office and of its principal office in Idaho, and email address (if available)

Principal Office:

Ammon, ID 83401

Vince Calkins, CTO: 30.2% stock interest
3962 Clearfield Lane
Ammon, ID 83401

Dynamic Networks LLC: 33.0% stock interest
461 Parkland Dr.
Sandy, UT 84070

2. Services and Territory

i. A description of customer classes and customer services that the applicant proposes to offer to the public. The application shall indicate the date on which the applicant proposes to begin construction or anticipates it will begin to provide service in Idaho.

Fybercom plans to begin to provide resold local exchange services to business customers in Idaho in July 2024, assuming that Fybercom has successfully negotiated and executed its resale arrangement with CenturyLink and the Commission has acted on this Application by then. Fybercom currently provides residential and business broadband services in Idaho.

- ii. **A description sufficient to determine whether service is to be offered in a particular location and the names of incumbent local exchange corporations (ILECs) with whom the proposed utility is likely to compete. The application shall also describe the intended manner of service, e.g., resold services or facilities-based services.**

Applicant intends to provide resold local exchange service in CenturyLink's service area as set forth in Idaho's Telephone Company Service Area Map: <https://puc.idaho.gov/Fileroom/PublicFiles/maps/cities.pdf>. Consequently, Fibercom intends to compete with CenturyLink.

- iii. **A reasonably sized and detailed map showing where the applicant proposes to provide service including exchanges (if different from existing exchanges), rural zones, and local calling areas. If the service area is identical to an incumbent LEC's service area, then applicant may refer to the incumbent's service area.**

Applicant is proposing to provide resold local exchange service in CenturyLink's service area, except that Applicant does not intend to service areas serviced by LEC's that are eligible for a small or rural carrier exemption pursuant to Section 251 of the Federal Telecom Act of 1996.

- 3. **Financial Information - The current detailed balance sheets, including detailed income and profit and loss statements of applicant reflecting current and prior year balance for the twelve (12) months ending as of the date of the balance sheet, or if not readily available, for the period since the close of the preceding calendar year.**

Fibercom's balance sheet and profit and loss statement for calendar year 2023 are set forth in Attachment B.

The latest report, if any.

As a privately held company, Fibercom does not prepare annual reports.

- 4. **Tariffs and Price Lists - Proposed initial tariffs or price sheets setting forth rates, rules, terms, and regulations applicable to the contemplated service. Initial tariffs and price lists filings shall be in an electronic form as well as paper. The tariffs and price lists in electronic format will be in computer searchable Adobe Acrobat (PDF), or submitted on a CD-ROM or other format as prescribed by the Commission Secretary.**

Fibercom will submit a proposed price list for its resold local exchange service offering promptly following Commission action on this Application. Fibercom provides broadband services on a de-tariffed basis pursuant to rates, terms, and conditions posted on its website: <https://fibercom.net/>.

- 5. Tariff and Customer Contact - The name, address, and telephone number for those persons responsible for tariff and price list questions, as well as customer complaints and inquiries. The application shall state the toll-free telephone number for customer inquiries and complaints.**

Person responsible for price list questions:

Kort Spencer
3780 N Yellowstone Hwy
Idaho Falls, ID 83401
208.403.0505

Other customer inquiries and complaints may be directed to:

Toll-Free: 844-392-3748
Email: info@fybercom.net

- 6. Interconnection Agreements - Whether the applicant has initiated interconnection negotiations and, if so, when and with whom. Include copies of any interconnection contracts which have been completed for the provision of telecommunication services.**

Applicant has not yet initiated resale negotiations with CenturyLink and does not propose to do so until Commission action on this Application. As a result of the resale agreement that Applicant will enter into with CenturyLink, which will enable Applicant to benefit from CenturyLink's interconnection agreements, Applicant will not be required to separately enter into interconnection agreements in Idaho to enable Applicant to provide resold local exchange services in the state.

- 7. Compliance with Commission Rules**

Applicant has reviewed the laws and regulations of this Commission governing local exchange telecommunications services in Idaho and will provide service in accordance with all laws, rules, and regulations to the extent they are not preempted by the Federal Telecommunications Act.

- 8. Conservation of Telephone Numbers**

Applicant acknowledges that non-paging telecommunications carriers with telephone numbering resources in Idaho shall be subject to numbering conservation measures including mandatory one thousand (1,000) block pooling.

- 9. Escrow**

Applicant will not require advance payments or deposits from its customers and therefore no escrow account is being filed.

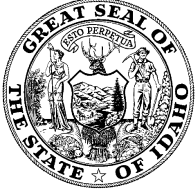

WHEREFORE, Fibercom respectfully requests for the Commission to enter an order granting to a Certificate of Public Convenience and Necessity authorizing Fibercom to provide the services set forth herein in the locations in the State of Idaho set forth herein.

Respectfully submitted this 29 day of March, 2024.
