Dark Fiber, and a 1GB Internet product." *Id.* at 1. The Company discloses that its broadband network has data transmission rates of 1GB speed upstream and downstream which exceeds the required rates of 200,000 bits per second to a subscriber and 125,000 bits per second from a subscriber. *Id.* The Company asserts that 100% of its Idaho subscribers have access to the broadband network. *Id.* The Company invested approximately \$1,910,770.08 in 2020 in qualifying broadband equipment that it certifies and believes qualifies under *Idaho Code* § 63-3029I. *See Transaction Report* attached to *Application*.

THE BROADBAND EQUIPMENT TAX CREDIT

Idaho Code § 63-3029I allows a taxpayer to receive an income tax credit for having installed qualified broadband equipment during a calendar year. Before the taxpayer is eligible for the tax credit, the taxpayer must first apply to the Commission for an order confirming that the installed equipment is "qualified broadband equipment" as defined in the statute. *Idaho Code* § 63-3029I(4). The statute defines "qualified broadband equipment" as equipment that: (1) qualifies for the *Idaho Code* § 63-3029B capital investment credit that "is capable of transmitting signals at a rate of at least [200,000 bps] to a subscriber and at least [125,000 bps] from a subscriber" (*Idaho Code* § 63-3029I(3)(b)); and (2) is "primarily used to provide services in Idaho to Idaho public

subscribers." *See Idaho Code* § 63-3029I(3)(b)(vii). Further, in "the case of a telecommunications carrier, such qualifying equipment shall be necessary to the provision of broadband service and an integral part of a broadband network." *Idaho Code* § 63-3029I(3)(b)(i). In furtherance of its statutory responsibility, the Commission has issued Order No. 28784.¹ That order specifies the information the taxpayer must include in the broadband tax credit application. When the taxpayer files the application, the Commission Staff ("Staff") reviews it to determine whether the listed equipment meets the statutory definition of "qualified broadband equipment." Staff then submits a recommendation to the Commission. If the Commission ultimately approves the application, then the Commission forwards it and the order to the Idaho State Tax Commission.

STAFF REVIEW

Staff has reviewed and audited the list of proposed broadband equipment and believes the identified equipment qualifies for the investment tax credit pursuant to procedural Order No. 28784 and *Idaho Code* § 63-3029I(3)(b). Staff recommends that the Commission issue an order confirming the equipment is qualified broadband equipment and forward the approving order and a copy of the Application to the Idaho Tax Commission.

COMMISSION FINDINGS

Having reviewed the Company's Application and Staff's recommendation, we find that the Company's equipment identified in Case No. FZ4-T-21-01 is "qualified broadband equipment" eligible for the tax credit under *Idaho Code* § 63-3029I. Accordingly, it is appropriate for the Commission to issue an order confirming that the Company's equipment is "qualified broadband equipment." The Commission makes no findings regarding the costs of the installed broadband equipment or other expenses.

ORDER

IT IS HEREBY ORDERED that the Company's Application for an order confirming that equipment the Company installed in 2020 is "qualified broadband equipment" is granted.

IT IS FURTHER ORDERED that a copy of this Order and a copy of the Application be served on the Idaho State Tax Commission.
