(472423 ID FUNC IN EMERG CERT.pdf)

Ability to Remain Functional in Emergencies Certification **§54.313(a)(1)**

ETCs must demonstrate that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to re-route traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.

§54.202(a)(2) Demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.

I, James K. Brooks, being of lawful age, state that I am Treasurer/Controller of Inland Telephone Company ("Company")(SAC 472423), that I am authorized to execute this certification on behalf of the Company, and that the facts set forth in this certification are true to the best of my knowledge, information and belief.

On this basis, the Company certifies that it maintained the ability to function in emergency situations under the standard found in Idaho Public Utilities Commission Order No. 29841 and in 47 C.F.R. §54.202(a)(2), as such standards relate to functionality of wireline carriers in emergency situations. The Company further certifies that it maintains back-up power to ensure functionality without an external power source in the forms of auxiliary generators and batteries in its central offices as well as adequate battery back-up in its subscriber carrier cabinets. The Company's switching capability is more than adequate to manage the traffic of its subscribers.

For calls within the exchange of Leon, depending upon where a cut is made, there exists redundant toll routing however, the Lenore exchange has no redundant toll routing. In both exchanges, customers can continue to make calls within the exchange should the interexchange interconnected facilities get disconnected. The Company does not have "ring" technology at this time however; the Company is always looking for redundant routing alternatives.

I certify under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.

(472423 ID VOICE RATE COMP CERT.pdf)

Voice Services Rate Comparability Certification §54.313(a)(2)

Any recipient of high-cost support shall provide the following: A certification that the pricing of the company's voice services is not more than two standard deviations above the applicable national average urban rate for voice service, which will be specified annually in a public notice issued by the FCC's Wireline Competition Bureau.

PUBLIC NOTICE DA 22-1338 – Voice Rates. Based on the survey results, the 2023 urban average monthly rate is \$36.73. Therefore, the reasonable comparability benchmark for voice services, two standard deviations above the urban average, is \$59.62. Under the Commission's rules, each ETC, including competitive ETCs providing fixed voice services, must certify in the FCC Form 481 filed no later than July 1, 2023, that the pricing of its basic residential voice services is no more than \$59.62.

I, James K. Brooks, being of lawful age, state that I am Treasurer/Controller of Inland Telephone Company ("Company"), Study Area Code 472423, that I am authorized to execute this certification on behalf of the Company, and that the facts set forth in this certification are true to the best of my knowledge, information and belief.

On this basis, the Company certifies, pursuant to 47 C.F.R. § 54.313(a)(10), that the Company's pricing of its voice services is no more than \$59.62.

The Company further submits, as support, the following residential service lines and rates as of June 1; excluding the Federal Subscriber Line Charge of \$6.50 and below \$36.73:

Exchange	Rate Type	Count	Base Res. Rate	State SLC	State USF Fee	Mand. EAS Charge	Total Per Res.

LINE 1030 - BROADBAND COMPARABILITY COMPLIANCE

(472423 ID BB RATE COMP CERT.pdf)

Broadband Services Rate Comparability Certification §54.313(a)(3)

Any recipient of high-cost support shall provide the following: A certification that the pricing of one of their broadband services, which meet public interest obligations, is no more than the applicable benchmark announced annually in a public notice issued by the FCC's Wireline Competition Bureau or is no more than the non-promotional price charged for a comparable fixed wireline service in urban areas in the states or U.S. Territories where the eligible telecommunications carrier receives support.

PUBLIC NOTICE DA 22-1338 – Broadband Rates. Recipients of high-cost and/or Connect America Fund support that are subject to broadband performance obligations are required to offer broadband service at rates that are at or below the relevant reasonable comparability benchmark. Carriers subject to the Alaska Plan are required to meet Alaska-specific benchmarks and to certify that they are meeting the relevant reasonable comparability benchmark for their broadband service offering in the FCC Form 481 filed no later than July 1, 2023.

I, James K. Brooks, being of lawful age, state that I am Treasurer/Controller of Inland Telephone Company ("Company"), Study Area Code 472423, that I am authorized to execute this certification on behalf of the Company, and that the facts set forth in this certification are true to the best of my knowledge, information and belief.

The Company offers at least one broadband service plan that meets the relevant metrics in both of its Idaho exchanges: pricing benchmark for the minimum speed standard of 10 Mbps downstream/1 Mbps upstream, and unlimited capacity Allowance. The Company's rate for a 10 Mbps downstream/1 Mbps upstream service is \$65.00; the benchmark is \$91.30. In its Lenore exchange, the Company also offers and advertises a fixed wireless broadband alternative; the maximum offered is 25 Mbps downstream/25 Mbps upstream, and unlimited capacity allowance for \$75.00. The closest benchmark is 25 Mbps downstream/5 Mbps upstream for \$91.36. On this basis, the Company certifies that the pricing of a service that meets the Commission's broadband public interest obligations is no more than the applicable benchmark announced in Public Notice DA 22-1338; compliant pursuant to 47 C.F.R. § 54.313(a)(3).

(472423 ID LIFELINE ASSISTANCE.pdf)

Lifeline Support – Lifeline Plans Terms and Conditions
§54.422(a)(2)

ETCs must provide information describing the terms and conditions of any voice telephony service plans offered to Lifeline subscribers.

I, James K. Brooks, being of lawful age, state that I am Treasurer/Controller of Inland Telephone Company (“Company”), Study Area Code 472423, that I am authorized to provide the following statement on behalf of the Company, and that the facts set forth in this statement are true to the best of my knowledge, information and belief.

On this basis, pursuant to 47 C.F.R. § 54.422(a)(2), the Company states that it provides service in a non-discriminatory manner and does not unlawfully discriminate on the basis of race, sex, age, religion, national origin, gender identity, sexual orientation, marital status, veteran status or any other basis prohibited by federal, state or local law. With that said, the Company offers its voice telephony services similarly to all that subscribe; there are no specific “Lifeline Plans” and no special terms or conditions for those utilizing Lifeline assistance. The Company’s service application as well as its website point out the Lifeline telephone assistance program for those subscribers that may be economically challenged. The Company utilizes the National Verifier for certification and re-certification.

(472423 ID PUBLIC INTEREST CERT.pdf)

Public Interest Obligations - Broadband Certification
§54.313(f)(1)(i)

Rate-of-Return ETCs are required to provide certain certifications and other details related to their broadband obligations.

I, James K. Brooks, being of lawful age, state that I am Treasurer/Controller of Inland Telephone Company ("Company"), Study Area Code 472423, that I am authorized to execute this certification on behalf of the Company, and that the facts set forth in this certification are true to the best of my knowledge, information and belief.

The Company currently offers and advertises a maximum speed of 100 Mbps downstream/50 Mbps upstream to where available to customers served by fiber-to-the-premise and 50 Mbps downstream/10 Mbps upstream where available to customers served from copper facilities in its Leon exchange. The Leon exchange is currently in the process of upgrading to fiber-to-the-premise. The Company currently offers and advertises a maximum speed of 25 Mbps downstream/25 Mbps upstream in its Lenore exchange and has consciously limited its offering based on bandwidth to the Internet from this exchange location. The Company currently conditions both of these offerings as they are not available throughout these exchanges.

On this basis, the Company certifies, pursuant to 47 C.F.R. § 54.313(f)(1)(i), that it has taken reasonable steps to provide upon reasonable request, broadband service at actual speeds of 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas, and that requests for such service are met within a reasonable amount of time.

I certify under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.
