Idaho Broadband Equipment Tax Credit Application – Tax Year 2023

Company Information

Name of company: Cable One, Inc.
Location of equipment: 8400 Westpark St. Boise, ID 83704
Mailing Address: 210 E. Earll Drive Phoenix, AZ 85012
Type of company: Telecommunications Carrier
Contact Person: Mary Mullaney

Equipment Description

Broadband services offered: HSD (Coax) & FTTP (Fiber).
Network description: Cable One, Inc. provides high-speed data services through a network that features two MX960 routers, which all data traffic traverses. Additionally, the network includes several Cable Modem Termination Systems (CMTSs) that deliver broadband service directly to customers. These are the devices that communicate with cable modems in customer homes. To enhance content delivery speeds, Netflix, Akamai, Mobi, Facebook, and Google caches store online content locally in Boise, allowing customer requests to be fulfilled locally rather than routing to distant third-party data centers. The network also employs a Network Time Protocol server to ensure that all equipment in the headend maintains accurate timing. Furthermore, Juniper ACX Commercial Access Routers provide our commercial fiber service, while other network switches enable server connectivity within the headend. (Exhibit C).
Transmission Rate: 100Mbps -940Mbps
Number and Percentage of Idaho Customers Served: Cable One serves 236,746 customers in Idaho of which 231,468 subscribe to HSD. It is estimated that 97.78% of Cable One customers access the broadband network.
Equipment list: See Attached Broadband Equipment List (Exhibit B).

I hereby certify that I have read the applicable statutes for broadband investment income tax credit and believe that the equipment listed herein qualifies for the tax credit under Idaho Code 63-3029I.
