SECTION B - RULES AND REGULATIONS

1. DESCRIPTION OF SERVICE

- .01 Intrastate Telecommunications Service is the furnishing of MCI services for communications between specified locations under the terms contained herein. Channels will be those of MCI alone, or MCI's in conjunction with those of other participating, concurring or connecting carriers.
- .02 Intrastate Telecommunications Service consists of the furnishing, for the use of customers, of channels for the direct transmission and reception of communications between the MCI Metropolitan Area Terminal City Locations or MCI terminals and all service offerings contained herein which anticipate the provision of such channels as part of the offering are included in this category. Such service has the capability of being extended beyond the respective MCI terminal locations.
- .03 MCI, when acting at the customer's request and as his authorized agent, will make reasonable efforts to arrange for service requirements which may include terminal equipment and circuit conditioning.
- .04 The MCI network is designed to insure that no more than five percent of all calls are blocked during the busy hour of the average business day. The network circuits are designed and engineered to provide high quality transmission of the human voice with a minimum level of impairment such as noise and echo. However, overall quality may vary somewhat due to the variability in quality of the connections provided by the local telephone companies, which is beyond MCI's control.

2. LIMITATIONS

- .01 Service is offered subject to the availability of facilities and the provisions contained herein.

SECTION B - RULES AND REGULATIONS

2. LIMITATIONS (CONT.)

- .02 Service may be disconnected, upon written notice, when necessitated by conditions beyond MCI's control. These conditions include, but are not limited to, a customer's call volume or calling pattern that results or may result in network blockages or other service degradation which adversely affect service to the calling party, customer, or other customers of MCI. MCI also reserves the right to discontinue furnishing service, upon written notice, when the customer is using the service in violation of the provisions contained herein, or in violation of the law.
- .03 Call Blocking: Without notice, the Company may block calls to or from certain countries, country codes, cities, city codes, NXX exchanges, individual telephone stations, groups or ranges of individual telephone stations or calls that use certain authorization codes, whenever the Company deems it necessary to take such action to prevent: (a) the unlawful use of service; (b) fraud; (c) the use of service in violation of the requirements of this Tariff; or (d) Company network blockage or the degradation of service furnished to the Customer or to other customers; or when actions taken by foreign governments or foreign telecommunications agencies, or responsive actions taken by the U. S. Government or any instrumentality thereof, render it impossible or impracticable to provide service. The Company will unblock as soon as it determines it can do so without undue risk, and it will, upon request by an affected Customer, assign new authorization codes to replace any that were deactivated. Whenever call blocking occurs on lines presubscribed to the Company, Customers or former Customers will be unable to make calls via any of the Company's CICs or those of its affiliates. At the request of a private payphone owner, the Company will arrange to block direct dial (i.e., completed without the assistance of an operator) calls made from a payphone to Puerto Rico and the U.S. Virgin Islands and to all international locations, except Canada. The Company may refuse to accept calling or credit card, collect calling and/or third number calls which it determines are or may be fraudulent, or it may limit the use of these billing options to or from certain countries or areas, including all or part of the United States, Puerto Rico, and the U.S. Virgin Islands.
- .04 Toll access will not be provided to local 976 numbers because the proprietors of the services offered through such numbers have not provided MCI with a schedule of their charges.
- .05 MCI reserves the right to discontinue the use of any code provided to a customer of its Metered Use Services, e.g. Dial "1" or Credit Card or VNET, and to substitute another code for such customer's use. Nothing herein, or in any other provision of this tariff, or in any marketing materials issued by the company shall give any person any ownership, interest, or proprietary right in any given MCI code.
- .06 A customer shall not use any service mark or trade mark of MCI or refer to MCI in connection with any product, equipment, promotion or publication of the customer without the approval of MCI.

SECTION B - RULES AND REGULATIONS

2. LIMITATIONS (CONT.)

- .07 In order to control fraud, MCI may refuse to accept LEC Calling Cards which it determines to be invalid. All coin paid calls initiated via MCI Payphone Service will be routed to AT&T. All 911 emergency calls initiated via MCI Payphone, or Institutional Phone Service will be completed by the local exchange company.
- .08 Calls may not be placed using a Local Exchange Company's calling card whenever there is no obligation on the part of the Local Exchange Company issuing the calling card to invoice such calls on MCI's behalf, and calls may not be placed or received using 10XXX dialing or collect third party calling conventions, e.g., 1-800-COLLECT, whenever there is no obligation on the part of the serving Local Exchange Carrier to invoice such calls on MCI's behalf or whenever that Carrier fails to provide billing name and address (BNA) information to MCI in connection with such calls.

3. TERMS AND CONDITIONS

- .01 Service is provided and billed on the basis of a minimum period of at least one month. Service begins on the date that billing becomes effective and continues to be provided until cancelled by the customer in writing on not less than 30 day's notice. 30 days notice is calculated as 30 days from the date of the post mark on the customers letter giving notice of cancellation. If this results in a customer being billed for part of a month, the bill shall be prorated for the number of the days in the month that are part of the 30 day notice requirements compared to the total number of days in that calendar month. This pertains to services that have monthly minimum charges, which are Dedicated Leased Lines, MCI WATS and group billing.
- .02 Service is offered on a monthly basis, 24 hours per day. It is also offered on a Metered Use basis.
- .03 For the purpose of computing charges, a month is considered to have 30 days.
- .04 The name(s) of the customer(s) desiring to use the service must be stipulated in the application for service.
- .05 Customers will only be charged once, on either an interstate or intrastate basis, for any nonrecurring or optional features.

6. USE OF SERVICE (CONT.)

- .051 Other Common Carriers will be responsible for charges, costs, etc. incurred by MCI with respect to Supportive Services as referenced in this tariff.
- .052 Other Common Carriers will be responsible for all interaction and interface with their own subscribers or customers.
- .06 Service furnished by MCI shall not be used:
- .061 For any unlawful purpose.
- .062 For any purpose for which any payment or other compensation is received by the customer, except when the customer is an entity which holds itself out as being a communications common carrier or resale common carrier or entity which resells MCI service as part of an enhanced communications service or an electronic information service. This provision does not prohibit an agreement between the customer, authorized user or joint user to share the cost of the service as long as this arrangement generates no profit for anyone participating in a joint use or authorized use arrangement.

7. PAYMENT ARRANGEMENTS

.01 The customer is responsible for payment of all charges for services furnished to the customer or its joint or authorized users. Non-recurring charges are payable when the service(s) for which they are specified have been performed. If an entity other than MCI, e.g., another carrier or supplier, imposes charges on MCI, in addition to its own internal costs, in connection with a service for which an MCI non-recurring charge is specified, those charges will be passed on to the customer. Recurring charges which are fixed in amount and not dependent on usage are billed in advance. Usage charges are billed after each usage cycle.

.02

D
|

.03 MCI's bills are payable upon receipt. If MCI becomes concerned at any time about the ability of a customer to pay its bills, MCI may require that customer to pay its bills within a specified number of days and to make such payments in cash or the equivalent of cash. MCI may invoice low usage customers every other month unless a customer invoiced in such a manner requests monthly billing. If MCI permits a commercial (T) customer to delay payment beyond 35 days after the regular billing cycle, interest will accrue upon the unpaid amount at the rate of one-and-one-half percent (1.5%) per month, unless such rate is prescribed by law, in which event interest will accrue at the highest rate allowed by law. The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer.

For residential service and Small Business customers, a late payment charge of 1.5 % may be assessed on payments not received within 30 days from the invoice date, where capabilities exist. The late payment charge will be applied to the entire unpaid balance of the customer's monthly invoice including taxes. The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer. The late payment charge of 1.5 % is not applicable to subsequent rebilling of any amount to which a late payment charge has already been applied. Late charges are to be applied without discrimination.

.04 Applicants for service or existing customers whose financial condition is not acceptable to MCI, or is not a matter of general knowledge, may be required at any time to provide MCI a security deposit, in cash or equivalent of cash, up to an amount equal to the applicable installation charges, if any, and/or up to two months' actual or estimated usage charges for the service to be provided. Such applicants or customers may also be required, at any time, whether before or after the commencement of service, to provide such other assurances of, or security for, the payment of

7. Payment Arrangements (Cont.)

MCI's charges for its services as MCI may deem necessary, including, without limitation, advance payments for service, third party guarantees of payment, pledges or other grants of security interests in the customers' assets, and similar arrangements.^{1/} The required deposit or other security may be increased or decreased by MCI as seems appropriate in the light of changing conditions. In addition, MCI shall be entitled to require such payments in cash or the equivalent of cash. In case of a cash deposit, simple interest at the rate of five percent (5%) per annum for the calendar year of 2007 will be paid for the period during which the deposit is held by MCI, unless a different rate has been established by the appropriate legal authority in the jurisdiction in which the MCI service is provided. At MCI's option, such deposit may be refunded to the customer's account at any time. (I)

- .05 The charges set forth herein for channel terminations contemplate installations made in normal locations and under normal working conditions. Any installations to be made under other circumstances are subject to additional charges.
- .06 If a customer does not give MCI written notice of dispute with respect to MCI's charges within 2 years from the date of the invoice, such invoice shall be deemed to be correct and binding upon the customer.
- .07 In the event the Company incurs fees or expenses, including attorney's fees, in collecting any charges owed the Company, the customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

^{1/} When billing and collection for MCI's Options A (Dial One/Direct Dial) and B (Credit Card), is performed on MCI's behalf by a local exchange carrier, the security deposit requirements set forth in the local tariff of the local exchange carrier will apply to the customer's MCI service, in lieu of the provisions contained herein.

SECTION B - RULES AND REGULATIONS (CONT.)

7. PAYMENT ARRANGEMENTS (CONT.)

- .08 If a customer whose account has been closed has a credit balance showing, MCI will transfer the credit to another account of the customer, if there is one, or will mail a check for the balance to the customer if it believes it has a valid address. If MCI is not certain it has a valid address, it will include a notice with the final invoice, which will be mailed to the customer's last known address, asking the customer to verify the address so that it can make a refund or it will contact the customer at that address and request verification. Such verification can be made by calling a designated telephone number or by writing to a specified address. Upon receiving verification, a check for the balance will be mailed. If the final invoice or the notification letter is returned by the post office as undeliverable, or if no response is received within thirty days of mailing, MCI will begin applying a closed account maintenance charge of \$2.50 per month in the second monthly billing period following the month in which the account was closed, and will continue to apply that charge until the customer requests a refund or the balance is exhausted.
- .09 In the event payment is made by check and the customer's check is not honored by the institution on which it was drawn, MCI will impose, and the customer will be required to pay, a \$10 fee, in addition to other remedies available to MCI under the Tariff.

8. CHANGE IN SERVICE ARRANGEMENT

When a change in service arrangement involves the continued use by the customer of channels furnished by MCI, installation charges do not apply to the channels continued in use. The minimum service period for the channels continued in use is determined from the date of the initial acceptance thereof.

9. RESTORATION OF SERVICE

The use and restoration of service in emergencies shall be in accordance with Part 64, Sub-part D, Appendix A of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

10. INSPECTION

MCI may, upon reasonable notice, make such tests and inspections as may be necessary to determine that the requirements contained herein are being complied with in the installation, operation or maintenance of the customer or MCI equipment. Without incurring any penalty, MCI may interrupt the service at any time because of departure from any of these requirements.

11. CANCELLATION FOR CAUSE BY MCI

- .01 MCI may discontinue the furnishing of service(s) to a customer, without incurring any liability:
 - .011 Immediately and without notice if MCI deems that such action is necessary to prevent or to protect against fraud or to otherwise protect its personnel, agents, facilities or services, MCI may discontinue service pursuant to this sub-section B-11.011 if:
 - .0111 the customer refuses to furnish information to MCI regarding the customer's credit-worthiness, its past or current use of common carrier communications services or its planned use of service(s);
 - .0112 the customer provides false information to MCI regarding the customer's identity, address, credit-worthiness, past or current use of common carrier communications services, or its planned use of MCI service(s);
 - .0113 the customer states that it will not comply with a request of MCI for security for the payment for service(s) in accordance with Section B-7.04;

SECTION B - RULES AND REGULATIONS

11. CANCELLATION FOR CAUSE BY MCI (CONT.)

- .0115 The customer either (1) accesses MCI service by dialing 10222, or any other MCI carrier identification code, or (2) having presubscribed to MCI's Dial "1" Long Distance Service (Option A), has had its account(s) cancelled and has been removed from MCI's billing system and is being billed for its subsequent use of MCI's service(s) or (3) indicates to MCI or its billing entity that it will not pay for MCI service(s) used by it; or
- .0116 A subscriber to Metered Use Service Option A (Dial "1") who accesses the service by use of an authorization code has not used the service, with the exception of calls to Directory Assistance, for 90 days. In such case, MCI will deactivate his or her code to reduce the danger of abusive use. If he or she wishes to renew usage of the service, e.g. upon returning to a vacation home, MCI will promptly supply a new code. This provision does not apply to customers of MCI Dial "1" Long Distance Service in central offices where equal exchange access is available; or
- .0117 The customer uses service to transmit a message, locate a person or otherwise give or obtain information without payment for the service; or
- .0118 The customer uses, or attempts to use, service with the intent to avoid payment, either in whole or in part, other charges for the service stated in this tariff

- .01183 Any other fraudulent means or devices;
- .012 Immediately upon written notice to the customer of any sum thirty days (30) past due; or
- .013 Immediately upon written notice to the customer, after failure of the customer to comply with a request by MCI for security for the payment of service in accordance with Section B-7.04; or
- .014 Thirty (30) days after sending the customer written notice of noncompliance with any other provision of this tariff if the noncompliance is not corrected within thirty (30) day period.

The discontinuance of service(s) by MCI pursuant to this Section does not relieve the customer of any obligation to pay MCI for charges due and owing for service(s) furnished up to the time of discontinuance.

12. TESTING AND ADJUSTING

Upon reasonable notice, the channels provided by MCI shall be made available to MCI for such tests and adjustments as may be necessary to maintain them in satisfactory condition; no interruption allowance will be granted for the time during which such tests and adjustments are made.

13. TERMINAL EQUIPMENT

- .01 Terminal equipment, such as teleprinters, handsets or data sets at the premises of the customer and connecting local channels between such premises and the MCI terminals, shall be furnished by and maintained at the expense of the customer, except as otherwise provided.

SECTION B - RULES AND REGULATIONS

13. TERMINAL EQUIPMENT (CONT.)

- .02 The characteristics of equipment at either end of the channel shall be such that its connection to the channel complies with the minimum protection criteria set forth below, and does not interfere with services furnished to other customers. Additional protective equipment, where required, shall be at the customer's expense.
- .03 When services using Bell voice grade facilities are terminated in customer-provided terminal equipment, channel derivation devices, or communications systems, the customer shall comply with the minimum protective criteria set forth below:
- .031 When the facilities furnished under this tariff are used in common with Bell System services, it is necessary in order to prevent excessive noise and crosstalk that the power of the signal applied to Bell lines be limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band above 300 Hertz which may be applied by the customer-provided equipment at the point of termination will be specified by MCI for each application, to be consistent with the signal power allowed on the telecommunications network.

SECTION B - RULES AND REGULATIONS

13. TERMINAL EQUIPMENT (CONT.)

- .032 To protect the telecommunications services from interference at frequencies which are about the band of service provided, MCI will specify the acceptable signal power in the following bands to be applied by the customer-provided equipment or communications system at the point of termination to insure that the input to Bell facilities does not exceed the limits indicated:
- the power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 dB below the power of the signal as specified in Section 13.031 preceding.
 - the power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 dB below one milliwatt.
 - the power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 dB below one milliwatt.
 - the power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 dB below one milliwatt.
 - the power in the band above 40,000 Hertz shall not exceed 50 dB below one milliwatt.
- .033 Where there is connection via customer-provided terminal equipment or communications system to a Message Telecommunications Service or a WATS service to prevent the interruption or disconnection of all call, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment to the interface at no time has energy solely in the 2450 to 2750 Hertz band. If signal power is in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

13. TERMINAL EQUIPMENT (CONT.)

- .034 Where such customer-provided equipment or communications system applies signals having components in the frequency spectrum below 300 Hertz, excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the interface shall not exceed the limits indicated in B-13.0341 through B-13.0344 following:
 - .0341 The maximum rms (root-mean-square) value, including dc and ac components, of the current per conductor will not exceed 0.35 ampere.
 - .0342 The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.
 - .0343 The conductor voltage shall be such that the conductor to ground voltage limit in B-13.0342 preceding is not exceeded. If the signal source is not grounded, the voltage limit in B-13.0342 preceding applies to the conductor to conductor voltage.
 - .0344 The total weighted rms voltage within the band from 50 Hertz to 300 Hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of the products times the square of the rms voltage of the individual frequency components. The weighting factors are as indicated:

for frequencies between weighting factor

50 Hertz and 100 Hertz $f^2/10^4$

100 Hertz and 300 Hertz $f^{3.3}/10^{6.6}$

where f is the numerical value of the frequency, in Hertz, of the frequency component being weighted.

14. ALLOWANCE FOR INTERRUPTIONS

Except as provided for in Sections B-6.04 and C-2 in this tariff which pertain to Directory Assistance and Dedicated Leased Line Services, respectively, and except as provided in Section B-14.024 below, the following credit allowances for interruptions of MCI services will be made:

- .01 For all of MCI's services for which charges are specified on the basis of per minute of use, or on usage of a fraction of a minute, and in which there may be interruption of an individual call, due to a condition in MCI's shared interexchange facilities or in shared access or termination facilities provided by other carriers, which can be remedied by redialing the call (Dial "1", Credit Card, Prism Plus, Payphone, Institutional Phone, and LEC Calling Card Services):

D
D

- .011 A credit allowance will be made for that portion of a call which is interrupted due to poor transmission (e.g. noisy circuit), one-way transmission (one party is unable to hear the other), or involuntary disconnection caused by deficiencies in MCI's service. A customer may also be granted credit for reaching a wrong number. To receive a credit, the customer must notify their Customer Service Representative and furnish information, including the called number, the service subscribed to, the difficulty experienced, and the approximate time the call was placed. Credit allowances will not be made for (1) interruptions not reported to MCI, or (2) interruptions that are due to the failure of power, equipment, systems, or services not provided by MCI. If the customer elects to use another means of communications after one of the above interruptions, or during a period when they are unable to place a call over MCI, the customer must pay the charges for the alternative service used.

SECTION C - SERVICE DESCRIPTIONS AND RATES

3. METERED USE SERVICE¹

(T)

.01 General Description

Metered Use Service offers the use of intrastate communications facilities shared among multiple users, and is provided on the basis of the following service options as described below. Depending on the option(s) chosen, the customer may select the manner in which calls are originated and terminated, may obtain one-way or two-way service, may enjoy point-to-point or multipoint service, or may originate calls in multiple cities.

Certain Metered Use Service Offerings involve, at the customer's option, a monthly subscription fee, a recurring monthly minimum charge for intrastate facility usage, or a one time initiation of service charge. At additional cost, certain Metered Use Service options offer a customer the ability to: (1) identify the users and allocate the cost of his long distance service through the use of accounting codes, and (2) receive his or her call records on magnetic tape.

Under each of the above service options, the individual customer's total monthly charges for use of the intrastate communications facilities are based upon the total time the customer (account) utilizes such facilities. In that regard, individual intrastate facilities usage charges, as well as other specific charges, discounts and/or features are applicable to each individual service option. Unless otherwise noted, when a Metered Use Service call is established in one time-of-day rate application period and ends in another, the rate in effect in each rate application period applies to the portion of the call occurring with in that rate application period. A specific description of each of the Metered Use Service options and its recurring and non-recurring charges, features, applicable discounts and service availability is contained in Section C-3 following.

Option A, B, and Q customers may enroll in the Friends & Family or Friends of the Firm Programs and become eligible for discounts in those programs in addition to discounts established elsewhere in this section. These customers are subject to the rates and provisions stated below for the Program.

.02 Option A (Dial One/Direct Dial)^{1,2}

Dial One/Direct Dial Service is a one-way, dial in-dial out multipoint service allowing the customer to originate and terminate calls via MCI-provided local business telephone lines or other exchange access facilities. Subscribers to Dial One/Direct Dial may originate calls only in the city or cities in which they maintain an active Dial One/Direct Dial account. Customers who presubscribe to MCI may do so on a direct dial basis, by dialing 1010222, or via a 7 (T) digit access number. Customers may terminate calls as specified in Section 3.027 below. Unless otherwise specified, all Dial One/Direct Dial calls are rounded to the next higher full minute. If the computed charge includes a fraction of a cent, the fraction is rounded down to the next whole cent for all Dial One/Direct Dial calls. At the customer's option, Dial One/Direct Dial is available on the basis of a Corporate Account Service arrangement and Corporate Account Service PLUS.² At their option, business entities which subscribe through the Commercial Affinity Program (CAP) or Commercial Affinity Program Plus (CAP Plus) or individuals who are members of a Qualified Residential Affinity Group (as defined in Section A of this Price List) may order Dial One/Direct Dial service through their group. Each group member electing to use this Qualified Commercial or Residential Affinity Group Billing Arrangement will be billed separately, and will be responsible for its own usage charges. The group will be provided the total charges billed to its members each month in order to determine its compliance with MCI's definition of Qualified Commercial or Residential Affinity Group as defined in Section A of this Price List.

Monthly Minimum Usage - Customers subscribed to this plan must pay a monthly minimum usage charge, as specified in http://consumer.mci.com/mci_service_agreement/res_domestic_services.jsp; except that customers who are subscribed to this plan and who have selected the Company for intralata service only will be charged a monthly minimum charge of \$5.00.

SECTION C - SERVICE DESCRIPTIONS AND RATES (CONT.)

3. METERED USE SERVICE

3.04 Option C (MCI Flat Rate)¹

Option C (MCI Flat Rate) is an outbound and inbound, multipoint service for single or multiple location customers. Customers may access the MCI network using Dial "1" or (D)
inbound service using 800 termination. Upon enrollment, customer must designate a term plan option, with either a month-to-month, one-year, or two-year commitment. No discounts will apply to this service. Outbound Option C calls may originate and terminate anywhere within the State of Idaho. Outbound calls are dialed without assistance of an MCI operator (D)

and do not include calls as specified in Section C-3.11 and Section C-3.12. Inbound Option C calls are made through a designated 800 number, and the Option C customer is billed rather than the call originator. All calls are subject to a 60 second minimum initial period and are then rounded to the next higher 60 second increment. If the computed charge includes a fraction of a cent, the fraction is rounded to the nearest whole cent. (D)

MCI Flat Rate intrastate service is an add-on to MCI's interstate MCI Flat Rate service and all terms and conditions, features, functions, discounts, installation, monthly, and any other charges except intrastate usage will apply pursuant to MCI's FCC Tariff No. 1.

Monthly Recurring Charges

Account Fee: \$20.00 per account if total Option C usage charges (excluding non-recurring and monthly fees) are less than \$20/account/month. The \$20.00 charge is applied against the month's usage charges.

3.041 Access Methods and Charges

3.0411 Dial "1" Access

Dial "1" access, as described in Section C-3.02, can be used for Option C alone or in conjunction with calling card access and/or 800 access. The customer can pre-subscribe up to fifty locations for each Option C account. There is no limit to the number of originating telephone numbers at a customer location.

Option C customers will be charged the per minute rate listed below during all time periods:

3.0413 MCI Flat Rate 800

(D)

MCI Flat Rate 800 can be used as part of Option C service alone and/or in conjunction with Dial "1" access or calling card access. This type of access is accomplished by 800 termination in which MCI provides a unique 800 number with Business Line Termination to the Option C customer so that the customer can receive incoming calls. The Option C customer is billed for the calls rather than the call originators. A customer may order multiple 800 numbers which can terminate to the same or different telephone numbers. Option C customers are subject to the rules and regulations governing MCI 800 Service as set forth in MCI's FCC Tariff No. 1.

Option C customers will be charged the per minute rate listed below during all times periods:

SECTION C - SERVICE DESCRIPTIONS AND RATES (CONT.)

3. METERED USE SERVICE (CONT.)

3.09 Option H (Prism Plus)

Option H is a one-way, multipoint service allowing the customer to originate calls via customer-provided local business telephone lines, and allowing the termination of calls via a combination of MCI-provided intrastate facilities and local business telephone lines. All Prism Plus calls are subject to a 60 second minimum initial period and are then rounded to the next higher 60 second increment. A customer who subscribes to this service but does not pay for usage when billed (as prescribed under Section B-7.02), will be terminated as a Prism Plus customer. If the party then continues to access the MCI network, it will be billed for its usage at the rates specified in Section C-3.02 and will be treated in all respects as a customer of that service (Dial 1).

3.0911 Account Charge: This charge is pursuant to MCI's FCC Tariff No. 1.

3.0912 Per Minute Usage Charges

.14 Option M (MCI Preferred)

Option M is a one-way, outbound, multipoint service for single or multi-location customers using Dial "1" origination. In connection with Option M, using Dial "1" access Service Type 1 only, as described below, the customer can obtain an inbound 800 termination option. Multiple outbound calling locations will be billed via a single invoice. If applicable, upon enrollment, the customer must designate each originating Dial "1" telephone number as either Service Type 1 or Service Type 2, as described below. Outbound calls are dialed without the assistance of an MCI Operator, except for calling card calls originating from a rotary phone, and do not include calls as specified in Section C-3.11. Inbound Option M calls are made through a designated 800 number, and the Option M customer is billed rather than the call originator. All Option M calls are subject to a 60 second minimum initial period and are then rounded to the next higher 60 second increment. When an Option M call is established in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the call occurring during that rate period. (D)

.141 Monthly Recurring Charges

Account Fee: \$20.00 per account if total Option M usage charges (excluding non-recurring and monthly fees) are less than \$20/account/month. The \$20.00 charge is applied against the month's usage charges.

.23 Option V (500 Personal Number Service)¹ (T)

500 Personal Number Service is an inbound voice-grade telecommunications service that permits calling from stations in diverse geographical service areas within the United States to a station at one location, or to a set of stations of up to three stations at more than one location in the United States, Puerto Rico, the U.S. Virgin Islands, and/or international locations, based upon pre-established priorities.

For any 500 Personal Number Service call, there are two customers: the "Subscriber" (i.e., the party at whose designated location(s) the 500 Personal Number Service call terminates) and the "Calling Party" (i.e., the party who places the call). Each party is fully and equally subject to all applicable provisions in this tariff which pertain to customers. The Calling Party has three billing options available for this service: Calling Party ANI billing, local exchange carrier calling card, and commercial credit card.

The following types of calls are not permitted using this service: collect; third party billed; and person-to-person.

All 500 Personal Number Service calls are subject to a 60-second minimum duration, with 60-second additional increments. If the computed charge for any call includes a fraction of a cent, the fraction is rounded to the nearest whole cent.

Neither the Subscriber nor the Calling Party is required to designate MCI as his or her Primary Interexchange Carrier (PIC). Each 500 Personal Number Service call will include a recorded or live operator announcement to the Calling Party indicating that MCI is the provider of the service.

Users of 500 Personal Number Service may have access to non-tariffed enhancements (e.g., information services) provided by MCI.

.231 Basic Service Package

The Basic Service Package, which all 500 Personal Number Service Subscribers receive, includes the following:

- Friends & Family 500 Number: Each Subscriber is assigned a 500 number.
- Passcode: Each 500 Personal Number Service number is assigned a 6-digit passcode which can be used by the Subscriber to manage service features.
- Multiple Numbers^[1]: Permits Subscribers to pre-establish in priority up to three telephone numbers in the United States, Puerto Rico, the U.S. Virgin Islands, and/or international locations for the completion of calls placed by Calling Parties to the Subscriber. Numbers will successively be attempted if a busy-signal or answering machine is detected or if the call does not complete after four rings.
- Final Message^[1]: If calls are not completed at any of the three alternate numbers, the call will be sent to a Final Message. The Subscriber may choose among various options for the final message, including a closing message which informs the caller that the Subscriber is not available.
- Alternate Number^[1]: A Subscriber may temporarily override the pre-established priority sequence by designating an alternate number without having to change any of his or her Multiple Numbers. If there is no answer at the alternate number, the call will be forwarded to the Final Message. This feature can be activated and deactivated by the Subscriber.

[1] For these features, calls may not be forwarded to: service numbers (e.g., numbers beginning with 500, 700, 800, or 900); 911; numbers with a 555 prefix; or pay-per-call numbers (e.g., numbers with a 976 prefix).

3.98 Option DP (Verizon Prepaid Phone Cards)¹

T

Verizon Prepaid Phone Cards represent a prepaid calling card service that allows consumers to acquire and use cards to originate outbound direct dial calls via Company-provided 800 numbers. Verizon Prepaid Phone Cards can be used for both interstate and intrastate (intraLATA and interLATA) calls and are classified as either MCI Branded Phone Cards, or Verizon Branded Phone Cards, or cards co-branded with a third party (typically a distributor) (hereinafter "Verizon Branded Phone Cards") where the calling service is provided by MCI Communications Services, Inc. ("MCI").

There are two methods of providing Verizon Prepaid Phone Card services to consumers, as follows:

- Physical format which includes a preprinted phone number and a Personal Identification Number, hereinafter referred to as a "PIN", delivered on a plastic card typically measuring 3-1/2" x 2-1/4"; or,
- Virtual format, which is delivered as a PIN printed on a cash register receipt when purchased at a retail location, or delivered as a PIN when purchased via the World Wide Web.

Consumers can purchase Verizon Prepaid Phone Cards as follows:

- Verizon Branded Phone Cards directly from distributors.
- Verizon Branded Phone Cards via the World Wide Web or via a toll-free telephone number.

When sold through a distributor, prices for Verizon Branded Phone Cards and recharge minutes are established by the distributor. When sold by the Company, prices for Verizon Branded Phone Cards recharge minutes are established by the Company.

This tariff provides terms and conditions applicable to in-state calls made using Verizon Prepaid Phone Cards. The terms and conditions set forth herein for such calls made with Verizon Prepaid Phone Cards supplements the terms and conditions applicable to the sale and use of such cards as set forth in the Consumer Service Agreement located at http://prepaid.Verizon.com/ecommerce/service_agreement.jsp.

1. Card Values

Verizon Prepaid Phone Cards are available under two options, the Minute/Unit based cards and the Dollar based cards, as follows:

- .02 Dollar based cards display the initial dollar value of the card and a per minute rate for interstate calls, or the initial number of minutes available for interstate calls at the time of purchase. 4. Recharging

Verizon Prepaid Phone Cards are rechargeable, meaning that additional value may be added to a card, subject to a maximum allowed value per card, unless the card has expired or as otherwise expressly stated on the card, card packaging, or in the Service Agreement. Such additional minutes/units will be charged at the prevailing per minute/unit rate as of the date of recharging. A minimum of ten dollars (\$10.00) and up to a specified maximum amount may be added to the card per each recharge.

In addition to the foregoing, rechargeable cards are also subject to the following terms and conditions:

- .01 Upon recharge, a recharge fee of up to a maximum of fifteen percent (15%) of the recharge value may be assessed.
- .02 Recharge may be accomplished in any of the following manners:
 - .021 By direct payment at selected distributors' locations.
 - .022 By credit or debit card using the toll free access number printed on the card and following the audio prompts.
 - .023 By registering the card for "auto-recharge," an expedited recharge process that alerts the consumer when their calling card balance falls below a certain level and offers the option of an automatic recharge in the same dollar amount of the customer's previous recharge.

Recharge methods and availability may be based on distributor's preference. Recharge minutes/units or dollars of service purchased via the toll free access number or through auto-recharge must be paid for with a verified valid credit or debit card.

5. Exclusions

Verizon Prepaid Phone Cards cannot be used for calls to 700-, 900-, or 976 services or for certain operator assisted, third party billed or collect calls. Any unused balance on a Verizon Prepaid Phone Card cannot be transferred to or combined with one or more other Verizon Prepaid Phone Cards.

7. Regulations

Use of Verizon Prepaid Phone Cards is available by calling the Company toll free number printed on the card.

A completed call may only be charged to a Verizon Prepaid Phone Card that has a balance sufficient to cover the charges assessed for the call. The Verizon Prepaid Phone Card balance will be reduced by the appropriate minutes/units or dollars charged for the completed call.

After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A Verizon Prepaid Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute/unit, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.

Credit allowances for interruptions: MCI will credit one minute/unit on a consumer's Verizon Prepaid Phone Card in the event of poor call transmission or call cut off caused by MCI. To receive a credit, the consumer must promptly notify MCI Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by MCI, by the failure of other MCI services connected to the Verizon Prepaid Phone Card, for wrong telephone numbers or other causes outside the control of MCI.

Activated Verizon Prepaid Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a Verizon Prepaid Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. Card expiration dates will be specified on the card or the card packaging.

8. Other Conditions of Service:

- .01 The U.S. Public Payphone Surcharge applies when a Verizon Prepaid Phone Card is used to place a call from a U.S. public or semi-public payphone.
- .02 State Universal Service Charge: The Company may, at its option, apply the State Universal Service Charge at point of sale.

¹ New cards will not be available on or after April 17, 2012, and recharge requests on existing cards will not be processed after that date.

7. Regulations

Use of MinutePass Branded Phone Cards is available by calling the MinutePass toll free number printed on the card.

A completed call may only be charged to a MinutePass Branded Phone Card that has a balance sufficient to cover the charges assessed for the call. The MinutePass Branded Phone Card balance will be reduced by the appropriate minutes or dollars charged for the completed call.

After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A MinutePass Branded Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.

Credit allowances for interruptions: MinutePass Branded Phone Cards will credit one minute on a consumer's MinutePass Branded Phone Card in the event of poor call transmission or call cut off caused by MCI. To receive a credit, the consumer must promptly notify MinutePass Customer Service of the service problem by calling the Customer Service number printed on the card. Credit will not be given when interruptions are caused by the failure of systems not provided by MCI, by the failure of other MCI services connected to the MinutePass Branded Phone Card, for wrong telephone numbers or other causes outside the control of MCI.

Activated MinutePass Branded Phone Cards are non-refundable. Once activated, and subject to applicable terms and condition, a MinutePass Branded Phone Card may be used to originate direct dialed calls until the available card balance is depleted or the card expires, whichever first occurs. Card expiration dates will be specified on the card or the card packaging.

8. Other Conditions of Service

.01 The U.S. Public Payphone Surcharge applies when a MinutePass Branded Phone Card is used to place a call from a U.S. public or semi-public payphone.

.02 State Universal Service Charge: MCI may, at its option, apply the State Universal Service Charge at time of sale.

¹ Effective 5/1/11, this service will no longer available to new customers.

² New cards will not be available on or after April 17, 2012, and recharge requests on existing cards will not be processed after that date.
