- 5. Semipublic Message Trunk Service is available to hotels, motels, and clubs to meet the telephone service requirements of their transient guests. Where warranted, in the opinion of the Company, this service arrangement may also be provided for hospitals, apartment houses, condominium complexes, courts and trailer parks where a considerable portion of the rooms or other units are regularly occupied by guests, patients or tenants for relatively short periods of time so that it is impracticable to provide regular exchange-type telephone service.
- 6. Any class, grade or type of business service regularly offered may be furnished to such locations in addition to the Semipublic Service, provided the use of the business service is confined to the management of the particular business establishment. Regular residence service may also be furnished in the quarters of guests, tenants, and/or patients in addition to Semipublic Service.
- 7. Under special circumstances, where in the opinion of the Company, it is practical to provide the necessary facilities, the tenants in separate motels, hotels, apartment houses, etc., may be served by one System. Under this arrangement all of the establishments must be under one ownership and operated as a single property. In such cases, the regular mileage charge treatment is applicable. Should one or more of the establishments cease to be under the same ownership, this service arrangement will be discontinued and separate service provided, as required for the establishments no longer under the same ownership.
- 8. Where regular flat rate or Centrex Service is provided to hospitals, regular residence service may also be furnished in the quarters of guests and tenants.

- 11. A single Semipublic PBX System may be arranged to provide flat or message trunk service to the administrative portion of the service and either flat or message trunk service to the guest portion of the Service; providing, where both flat and message trunk services are used, one trunk service will not supplement the other. - (10) Additional trunks purchased during the rate stability period can be incorporated into the terms of the existing Plan without renegotiating the Plan. If a lower rate is applicable due to the additional number of trunks, the larger discount will be applied once the trunks are in service, until the conclusion of the Plan.

- (12) In the event a customer's business is sold, the Rate Stability Plan may be transferred to the new owner, if the following conditions are met:
  - The Company is notified in advance of the sale and a "Change of Responsibility" form is issued, if required by the Company.
  - The new customer assumes the liabilities and terms of the existing Plan which are in effect at the time of transfer.
  - Existing facilities remain in place.
  - A "Change of Responsibility" agreement is signed by both parties if required by the Company
  - The transfer of responsibility is accepted by the Company.
- (13) The appropriate rates and charges found in Section 2 of this Catalog would apply for service transferred from one customer to another.
- (14) Once the Rate Stability Plan period ends, the customer may negotiate a new Plan or continue service under the standard applicable rates in effect at that time.

#### 5.5 PUBLIC COMMUNICATIONS SERVICE - COIN AND COINLESS

- 5.5.7 PUBLIC ACCESS LINE SERVICE
  - A. Description (Cont'd)
    - 6. Fraud Protection Service for Basic PAL Service offers three levels of protection: incoming, outgoing, and incoming & outgoing as described below.
      - Incoming Fraud Protection, or Billed Number Screening (BNS), prohibits collect and/or third number billed calls from being charged to Incoming Fraud Protected numbers. Callers attempting to place a collect or third number billed call using an Incoming Fraud Protected number for billing will be advised by an operator that such billing is unauthorized and the call will not be completed until other payment or billing arrangements are made.
      - Outgoing Fraud Protection restricts outgoing toll calls to only collect, third number billed and calling card.
      - Incoming & Outgoing Fraud Protection is a combination of the two aforementioned Fraud Protection Services.

Fraud Protection Service is subject to the availability of facilities with Basic PAL Service. Operator assisted, collect and/or third number billed calls originating from locations that do not have screening capabilities may not be capable of being intercepted and denied and will be billed, e.g., International calls and calls that do not go through the Billing Validation Authority database. Provision of Fraud Protection does not alleviate customer responsibility for completed toll calls. Rates and Charges for this service are set forth in 5.5.7.D.5., following.

- B. Terms and Conditions (Cont'd)
  - 5. If CenturyLink terminates the Service(s) for Cause, or if a customer terminates the Services(s) in whole without Cause before the expiration date, the customer will pay termination charges of \$15.00 per line of the customer's Minimum Line Requirement times the remaining number of months left on the Term.   - 8. A customer that chooses a **CLVP** may not have Qwest Line Volume Advantage or any other Local Voice Discount Plan with the exception of CORE CONNECT 1.
