)	

During Staff’s routine audit of Aspen Creek Water Company (“Company”) Staff observed several instances of the Company charging for connections and rates in excess of the amounts permitted by its Commission-approved tariff.

On May 29, 2024, the Commission issued a Notice of Investigation directing Staff to file a report by July 10, 2024. Order No. 36196.

On July 9, 2024, at the Commission’s Decision Meeting, Staff presented a Decision Memorandum indicating it had found additional areas of concern related to the Company’s Certificate of Public Convenience and Necessity (“CPCN”) that it hoped to investigate during its investigation into the Company’s billing practices as authorized by Order No. 36196. Staff requested additional time to complete the investigation into the Company’s billing practices and CPCN.

We now issue this Notice of Extension granting Staff until September 6, 2024, to file its report. Further, we remind the Company that it may only charge its customers for service based on the rates contained in its Commission approved tariff.
