Comment: "I oppose this increase. In my opinion these increases are very aggressive and excessive. I have a septic tank on my property that pumps into the community leach field. The pump and tank are maintained by me as well as the cost to maintain them. I believe other residents have similar setups. A 100% increase for access to this field seems absurd.

If approved an action plan should be sent to all customers stating improvements that would be made with expected timelines for each improvement and a deadline in place to insure these are met. Also a capital expense form to justify these rates as well as to inform customers of where this money is being allocated on such an absurd increase.

Thanks

-Todd Kelley"
