Subject: Capitol Water Corp

Monica:

I have been a fortunate customer of Capitol Water since April. 1977. Over those years the Rate Increase Requests the corporation made to the PUC have always been more than reasonable, considering the 24/7 service they render for such a life sustaining product.

Please consider for **approval** the Rate Increase they have before you this year, one which is most fair, and a continuing bargain for their customers.

Thank you.
