Comment: I just received a letter in my mailbox saying that Suez is proposing to buyout Eagle Water Co and raise rates by 204%. This is ridiculous and shouldn't be allowing. I feel that a better option would be to have the City of Eagle take over the Eagle Water Co. I admittedly disagree with this buyout and proposed rate hikes.

Comment: I disapprove of the selling of Eagle Water Company to Suez. The increase in my water bill will create a hardship for me and my family.

Name of Utility Company: Eagle Water - Suez Contacted Utility: No

Complaint: I am very concerned with the proposed purchase of Eagle Water by Suez. I have been an Eagle Water customer for 26 years, and have always been more than happy with the quality of their water and their service. In 26 years I have not experienced a loss of water, other than temporary reduced pressure during maintenance and repairs.

Suez has stated they will raise our water rates by over 200% over the next several years. What benefits are they bringing to the consumer that offset their huge price increases. If Suez is allowed to purchase Eagle Water, the sales contract should only allow for reasonable price increases... It is the utilities commission's job to protect Idaho consumers. Please do your job

Comment: We just received the letter from Suez regarding their purchase of the Eagle Water Company. We are concerned with their reference to the average \$12.35 monthly bill. Our household of two adults on a small lot has not had that low a bill in several years. Additionally they indicate in their letter rate increases of \$6/mo. in 2019, \$9/mo. in 2020, and \$9/mo. in 2021. Then, later in the letter they state increases overall of \$204% for residential. This doesn't jive with the other amounts and I'm concerned they will dramatically increase our rates, similar to what they did when purchasing United Water.

Name of Utility Company: City of Eagle Water

Comment: I am opposed to the acquisition of Eagle Water by Suez Water. We are happy with our water service and the price we pay. Please do not allow this sale to go through as it would be detrimental to many Eagle residents. We don't support a monopoly in which we lose all our rights. Thank you.

Comment: I am against the sale, and the asset purchase, of Eagle Water to Suez Water.

Reasons are as follows.

The dramatic increase for residential water for Eagle property owners of over 200% is excessive and greatly impacts senior citizens.

Suez Water states the purchase of Eagle Water will have a favorable affect on both Suez and Eagle customers.

However, this does not seem to be true if Eagle residents see an 200% increase over what they are currently paying.

Suez has agreed to purchase all assets of Eagle Water then amortize the costs to Eagle residents. Has not all these assets, including lines, building, wells, etc, already been paid for by Eagle customers? Are Eagle residents currently on Eagle Water expected to pay for these assets twice? I believe we should not. All water lines, wells, pumps, and equipment must be, if a sale is approved, must not be charged back to the consumer.

I understand the desire of the current owner of Eagle Water to sell, however I do not believe the current plan by Suez is in the best interest of Eagle Water customers.

Respectfully,

Barry Michelotti.

Comment: Your setting them up to be a monopoly. This does nothing more than setting them up to run more small company's out of business, not to mention putting a huge economic burden on home owners in Eagle.
