Name of Utility Company: Suez Water Company

Comment: My family strongly opposes the proposal by Suez Water Company to acquire the assets of the Eagle Water Company. This proposal offers no benefits to the consumer. It envisions a 200% + rate increase and less personalized service. At present you can call Eagle water and actually speak with a person, a huge benefit in this age of lack accountability by the computer phone answering dodge. And after speaking with a person Eagle water provides prompt in person service for water emergencies.

Suez offers a substantial rate increase with no associated benefits to the consumer. Therefore I request that the PUC deny this request.

Name of Utility Company: Eagle Water/Suez

Comment: We are opposed to the sale of Eagle Water Company to Suez. We will not see any improvement in services; and the proposed rates are exorbitant. This will place a huge financial burden on Eagle residents, especially those on a fixed income. The only entity that should purchase Eagle Water is the City of Eagle.

Name of Utility Company: Eagle Water Company

Comment: Please protect our water sources and only allow a local control of our resources for our water security in the future. Water sourced in Eagle Water area should stay for use by Eagle residents currently being serviced by Eagle Water.

We do not want an outside company to purchase our water rights as Eagle residents. We need time to propose the city purchase it or time to collect a co-op to manage our resources. We want to hold the rights to the water we currently have for use here in our area forever. There are eight wells needing protection from sale. And the source of those wells also need protecting at this time.

Thank You,

Rates are also important,

We want to keep our very good quality of water at a fair price. We need your help, Thank you Judy Dahl

Eagle ID, 83616

Name of Utility Company: Eagle Water Co.

Contacted Utility: Yes

Complaint: I object to the sale of Eagle Water Co to Suez on the grounds that the people in the service area should have the ability to own their water and distribution system. Water rights in Idaho are tricky business and as Idaho is a strong supporter property owner rights, I encourage you to give all the residents of Eagle the right to control their own destiny.

Let us have the opportunity to purchase Eagle Water Company. Its our water!

**Name of Utility Company: Eagle Water**

**Contacted Utility: No**

**Complaint: I am writing to express my concern about the purchase of Eagle Water by SUEZ. The purchase of Eagle Water by SUEZ would create a monopoly on a utility, something that, according to Idaho Statute: "monopolies and conspiracies among two or more entities are considered illegal activities".**

**I've also read that rates could be increased by 200–400%. This is completely unacceptable. Our cost of living is already on the rise due to the influx of people moving to the area. We can't afford to have SUEZ control our water, too!**

**Name of Utility Company:** EAGLE WATER COMPANY

**Comment:** Water is a precious commodity. While understanding the age of the owner and his need to sell, in no way should the sale to Suez be permitted. Once they acquire the water rights they will sell the water to additional customers thereby draining another well. The logical purchaser is the City of Eagle.

Please do not let this sale occur.

Robert Shepard

Comment: As a resident of Eagle I am very concerned with Suez taking over the Eagle Water Co. As I have been a United Water customer for many years being charged enormous water bills for a very small yard and very poor service we received. Water is a resource of life that we all need to survive and this company is not even an Idaho Company and can you imagine the control over our water that you are considering giving this company?? I strongly oppose this transfer of power and would even consider starting a petition halting these actions.
