Comment: "It is ridiculous to even suggest raising the cost of our water 55%. Families are already being stressed and budgets are being tightened with the current inflation and cost of living expenses. Falls water already raised prices once in the last year, now want to over double the price again. I do not believe that this is fair or just to the people of this community. Please do not pass this increase that Falls water has proposed. It will ruin communities and families. Thank you.

Randy Davis"
