Comment: "I'm writing in regard to the recent proposed water rate hike. I'm opposed to their 55% rate increase in our area.
We shouldn't have to pay for their new building, office furniture and one time purchases.
I understand they need a rate increase but what they are proposing is out of bounds.
No one gets a salary increase of 55% and it's not fair to people on a fixed income.
Sincerely, Ronald E. DiFelici"

Comment: "Falls Water was just granted an increased rate last year to cover facility upgrades. Now they are back to the well again. I feel this is because of the rapid expansion of housing that developers are building not because the system needs maintained. As such the developers should be funding the increased needs not the existing customers. We like a lot of people are on fixed income and can not afford an increase in rates every year"
