Name of Utility Company: City of Eagle

Comment: I am not in favor of Suez acquiring City of Eagle Water Co. I have had Suez water before and the fees are higher than City of Eagle Water.

This is in the best interest for Eagle Residents.

Thank you.

**Name of Utility Company:** Eagle Water

**Comment:** I am opposed to Suez purchasing Eagle Water Co. Costs will rise, consumers feel the quality of water will suffer, and it would appear that Suez would be very near a monopoly in our area. Please oppose this sale.

Comment: After reading the testimony for each of the related parties in this case, I do not believe that this sale and purchase is currently in the best interest of the Eagle Water Company, Inc. customers. I also believe that Mr. Thompson's comment of, "The rate structure that SUEZ proposes is intended to reflect projected costs required to correct identified efficiencies over a reasonable time period while minimizing rate-shock," is misaligned. >200% rate increases over 3 years is heavy rate-shock. I don't like the fact that SUEZ is asking to recover the purchase price through rate increases. That directly negatively impacts the Eagle Water Company, Inc. customers like myself, and is just a greedy position. Ms. Cooper also mentions that current SUEZ customers would benefit financially from this acquisition. So we pay excessively more than we have in the past and they pay less--Not so fair. Water is not a luxury--It's a basic necessity. The proposed SUEZ rate increases just don't justify the benefits that they are saying Eagle Water Company, Inc. customers will realize as part of this sale. (ex: I'll pay \$2 for a bag of peanuts, but the bag is not worth paying \$5.) And if the product you're purchasing needs immediate capital improvement, that's the cost of doing business and/or perhaps you should pay a lower purchase price for Eagle Water Company, Inc.

In final, I believe that I and many other Eagle Residents who are customers of Eagle Water Company, Inc. would feel much more comfortable if there was another potential buyer and offer to purchase. Perhaps the City of Eagle Water could present an alternative offer to purchase Eagle Water Company, Inc. This would ensure that the purchase and treatment of current Eagle Water Company, Inc. customers would be closer to being fair.

Complaint: In response to request by Suez Water to buy out Eagle Water Company I have concerns that I believe need to be addressed. First is water quality - I moved to Eagle from Boise and one of the reasons was that the water in Eagle tastes good, is clear and does not smell of chlorine. I believe Suez Water strongly over-chlorinates the water, to the point it faded clothing washed. There were days when the water would make my eyes water while doing dishes from the chlorine. That cannot be healthy. My second concern is the projected cost increases. As retirees on a fixed income this price hike will greatly impact my husband and myself limiting the amount of discretionary spending money we have. I anticipate this price hike would also affect our HOA fees as the costs for maintaining out common areas and facilities would increase considerably. I believe that having the City of Eagle assume control of Eagle Water Company would much better serves the citizens of Eagle.

Comment: I would like to voice my opposition and concern about the sale of Eagle Water to Suez Water Company. This company does not have a come with a good reputation and the increases over the next three years are of great concern. As well as a home owner, I am also the president of our Homeowners Association which will be greatly impacted. We have common areas used by sports teams and homeowners and this represents a 300%-400% increase for us. We have zeroscaped some of our common ares expecting a change from Eagle Water, but this much of an increase is excessive and will represent a 40% increase in homeowner dues.

Please review this carefully and have public meetings.  
Thank You

Comment: To Whom It May Concern:

We are strong opposed to Suez purchasing Eagle Water Company!! Eagle Water Company has done a great job servicing its clients, keeping the rates in check and the water tastes great!!

We have lived in Eagle for 31 years and have enjoyed the quality, taste and low prices of Eagle Water. The home we live in now was connected to a well which we removed in 2011 and hooked up to Eagle City Water. If this purchase takes place we have no other option than to drill a well and disconnect from Suez. We are one of the lucky ones who have this option.

Suez is well known by Boise residences for poor water quality and very high costs. As a Realtor, I let my clients know that if they purchase a home in which the water source is Suez to expect very high prices for water.

Along with ALL of our Eagle neighbors we cannot afford the proposed rate increases of over 200% for residential and over 300% for commercial. There has to be another option to save the people who live and work in Eagle!!
