Subject: Notice: A complaint was submitted to PUCWeb

The following complaint was submitted via PUCWeb:

Name: Ann McKillop

Submission Time: Feb 25 2021 9:37AM

Email: anniemck@gmail.com

Telephone: 208-407-2129

Address: 3650 N Brookside Ln

Boise, ID 83714

Name of Utility Company: EAGLE

Contacted Utility: No

Comment: "The residents north of Eagle maintain our own water rights. New developments in Eagle added 10,000 people at a time. The confluence of Jim Tibbs and a recession put fully approved, unsustainable rapid growth in our midst; those corrupt administrations were soundly defeated. Inexperienced new representatives and a bully multinational company, Suez, are forcing further unsustainable and lucrative sale of the Eagle water rights. The sale has never been explained. It is criminal. The groundwater rights of residents will fail when Suez banks high volumes of water and extinguishes the ground water source. Suez will destroy us with water utility bills for acreage. Those bills will instantly convert our entire established community into more "inevitable in-fill" and or desert. We paid for land and water here. Approving Suez is complicity in bulldozing a sustainable and attractive community in favor of short term exploitation and long term blight. It could also spur lawsuit in the near term"

I would ask that you include the following addendum clearly defining a scam perpetrated on the people of Eagle:
