Address: 2492 E Mariposa Drive
Eagle, ID 83616

Name of Utility Company: Eagle Water

Contacted Utility: No

Comment: "We are very upset that Eagle Water is being sold to Suez. We have the best drinking water already and do not need a Non-Idaho company to change it. Suez is a publicly traded company that has no interest in Eagle or Idaho. Rather, their interest is in making money, period. They will raise rates substantially as they have done every where else they have taken over. Trees, gardens, lawns, recreation, etc. will be impacted severally. We are asking the commission to deny the Suez company from buying Eagle water, it will be detrimental to the community in Eagle and Idaho. "
