Comment: "Suez Water has a reputation for sky-high rates and poor customer service. They should not be allowed to acquire Eagle Water accounts. They are a foreign-owned company which does not support the growth of our U.S. economy or support the improvement of our American infrastructure. The purchase should be denied."

Comment: "Please do not allow the sale of Eagle Water to Suez. I've lived here 16 years and never had a problem with my water. The service and water quality are exceptional. Why would we want to sell to an "outsider"?? SO much has changed here since we moved here and many of those changes have not been for the better. Comments on the Suez Water website are not good, almost no one is happy with them, why would you allow them to make even more people miserable? We like our water company. Let's keep some of Idaho, Idaho!"
