Address: 10478 N Cayuse Way
Boise, ID 83714

Name of Utility Company: Eagle Water

Case ID: EAG-W-18-01

Comment: "I strongly oppose the sale of Eagle Water to Suez. That a foreign company should have Idaho water rights is fundamentally wrong. Further, the company standards of Suez leave much to be desired. Quality is not a concern to them. Please deny Suez access to our Idaho water. Thank you."

Comment: "I am requesting you to deny the application for the sale of Eagle Water (case # EAG-W-18-01) to Suez. Suez has a long history of complaints, dirty water, over chemicalization of water, bad tasting dirty water, brown water on the bench, water rate hikes and poor customer service. EWC delivers clean, plentiful great tasting water and great customer service. We do not want a french based company owning and controlling our water, dumping chemicals in it and making it taste bad. We have a right to keep our pristine water locally owned and that we have a company that has our best interest in mind. Water is a life-sustaining resource that we have a right to. "

Comment: "As a long-time resident of Eagle Idaho and user of water supplied by Eagle Water Company, I implore the Commission to deny the sale of said company to Suez. Our household has been pleased with the water and service from EWC and envision this changing for the worse with Suez. I believe water rights and control should be kept local and that the City of Eagle should reconsider their inaccurate and unprofessional decision to back out of consideration for the purchase of EWC. I could bore you with the same objections to this purchase as you have heard from other well-intended water users. However, i suggest you re-read the comments from Shelley Brock from Eagle. Her research and description of the circumstances are flawless and whole-heartedly seconded by our household. Thank you for your considerations."
