Comment: "To Whom it may concern: I am against the sale of Eagle Water Company to Suez Water. There are several reasons ranging from poor water quality to lack of customer service that I am against the sale, however, I believe one of most significant reasons that is often overlooked is that Suez is a foreign owned company. I strongly believe that no foreign entity should have ownership over any of our natural resources and one that we rely upon heavily for daily life. (Yes, I understand that it happens all across the world and a myriad of ways, but it is foolish for any country/municipality to forgo ownership to a foreign entity.) And, I find the arrogance Suez is showing already going around, looking at meters and taking pictures before they even own the company disturbing. Thus, due to Suez's history of poor water quality, poor customer service, and the fact that they are a foreign company three excellent reasons to deny to their request to purchase the Eagle Water Company."
