**Subject: Report of Survey, Hoffman Troy Water Corporation
PWS ID1280096**

Dear Ron:

Thank you for your assistance in conducting the survey of the Hoffman Troy water system on January 5, 2012. I appreciate you sharing your knowledge of the water system. The system appears to be well run and in substantial compliance with Idaho Rules for Public Drinking Water Systems.

Listed below is a summary of items identified during the survey inspection and review of the Hoffman Troy Water Corporation file that warrant additional consideration. Please consult with DEQ staff within 30 days of receipt of this report to address the deficiency and additional requirements.

Deficiencies

- 1.) The site glass on Hydropneumatic Tank [B] is leaking and needs to be repaired. (IDAPA 58.01.08.547.02.a)

Additional Requirements

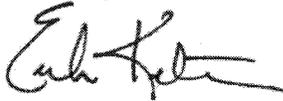

1. An instantaneous and totalizing flow meter must be provided on the 20 hp well pump discharge line the next time material modification are made to the system. (IDAPA 58.01.08.542.04)
2. Please provide the Department with information regarding the manner of the well lot's ownership.
3. Continue to flush dead end main lines twice per year as discussed during the survey.

Recommendations

1. Provide for a manner to temporarily extend the flow to waste outlet(s) in the event that significant volumes of water need to be discharged.
2. DEQ recommends all valves are exercised on an annual basis.
3. DEQ recommends all distribution lines are flushed on an annual basis.
4. DEQ recommends that all non-bladder hydropneumatic tanks be tested for structural integrity every five years.
5. DEQ recommends that the water system notify the local fire authority that their hydrants do not meet current fire flow capacity.

At this time, the system has been determined to be in substantial compliance with the Idaho Rules for Public Drinking Water Systems. Upon addressing the noted deficiency and additional requirements, the system will be determined to be in full compliance with the Rules. Please contact me at 208-666-4612 with any questions or concerns you may have regarding the above items.

Sincerely,

Erik Ketner
