

P.V.C. - A+L-E-87-01

I dont feel the people of Atlanta should have to pay for poor business practice.

Maintenec should have been done months ago to prevent the turbine from backing.

Our power costs are already the highest in the nation. ~~None~~ none of us feel we ~~we~~ should have to pay more for Mr. Rays mistakes!!!

The town is talking about a Co-op to have Atlanta Power Run Properly -

Also an audit should be done on Atlanta Power to see where our money went.

Out of country vacations for months at a time are not a business expense for Atlanta Power

Thank you!
