It's appalling to me that we, the customer's, have to pick up the surcharge because now Avista claims their expenses were more from 07/07 to 6/08. When I pay my bill I expect that I am paying the full amount at the time of service. IF ALL MY BILLS WOULD COME BACK A YEAR LATER AND SAY SORRY WE MADE A MISTAKE IN CALCULATION, NOW YOU HAVE TO MAKE UP THE DIFFERENCE, I WOULD BE BROKE! In this time when our economy is at an all time high this is another outrageous expense. Thank you for your attention to this matter. L. Haertter

Please describe your comment briefly:

You have a CEO who makes over one million dollars a year. You have 1 Executive VP, 2 Senior VP's, and 8 miscellaneous vice presidents. How many does one company need? What are the combined salary's of all the vice presidents? Why not have some of your staff take a slight decrease in pay and apply that money to the Power Cost Adjustment? There are so many people just barely hanging on financially. An increase in their utilities is not the solution. We're already paying for ridiculously high gas prices, which in turn has led to an increase in food, clothing, and everyday necessities. I know you will all laugh at this suggestion, but then, you're in a comfortable place to do so.
