I am hereby recommending denial of Avista's latest rate increase requests. I think the timing of this request could not be worse. When most people of moderate income, and our senior citizens are struggling to pay the bills, an increase of 14% for electriciy and 3.6 % for natural gas seems ludicrous. All expenses have risen dramatically for healthcare as well as normal household expenses for most people I definitely agree with the editor of the CdAlene Press that much of your goodwill you have tried to build, will be jeopardized by seeking these increases. In the real world, older people will turn down their heat and live in the cold, as well as the extreme heat during the hot summer days. Shame on you, Avista!

Please do not approve the rate increases that Avista has requested.  
I am retired and living on a fixed income and have not seen a cost of living raise for two years. I can't afford to pay more for utilities.  
Please do not approve these increases.

I strongly urge IPUC to deny the rate increase of 14% for electric and 3.6% for natural gas. I just took a 6% pay cut and reduction in medical care benefits and cannot afford to pay more for utilities.

Please deny this rate increase.
