

July 12-10
AVU-E-10-01/AVU-G-10-01

Sirs:

Don't understand where
you get the gall to raise our
electric rates!

We retired people sure
didn't get raises of .01 cents.
We have all been hit by
Obama's outrageous spend-
ing and no jobs to be had

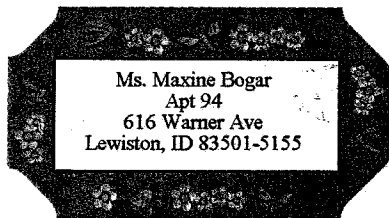

My kids work their butts
off to try to stay even but
do you guys care. Hell no!

Please rethink your decision!

Maxine Bogar

Who needs a raise? Not C.E.O's.

IDAHO PUBLIC
UTILITIES COMMISSION

AVU-E-10-01/
AVU-G-10-01

Commissioners;

As a Coewnd' Alene resident since 1982, retired since 2004, Andra AVISTA consumer all this time, I say NO to the AVISTA request for a 14% increase. There has been no changes in their delivery of electricity to my house over the past 28 years. They have made it harder to pay their bills, they have removed their local offices, they have improved their employee's retirement and they have improved their equipment. They have increased Management's pay and benefits.

Consumers are not bottomless money pits and must don't get payments from AVISTA on special considerations. During this economic crash

Common sense should advise reduce overhead expenses, use vehicles longer, eliminate excessive payroll costs at all levels and recognize many consumers are on fixed incomes or out of work. How

can they come up with 14% more in their electricity costs. I urge the commissioners this day to say NO to AVISTA's foolish want of more money from an already strapped public.

Respectfully,
Isaac D. Henry
