Add to Mailing List: yes

Please describe your question or comment briefly:
I think that a raise of about 11 percent for residential customers is a slap in the face.
I would be angry by a raise of 4 or 5 percent. Idaho Power is really only concerned with
their stock holders. Whatever happened to friendly customer service and rates????

Please describe your question or comment briefly:

From what I understand, this rate increase is all PCA (power cost adjustment). I think it would be very wise to see at least part of this increase be in the base rate, as we all know the price of power will have to go up in the future. Thank you.

Please describe your question or comment briefly:

I believe the rate increase is fair. The rate we currently pay is well below the national average. I believe in the future our rates will mirror the national average. I also believe it would be a good idea to have some of the rate increase be in the base price and not all of it be in the PCA. It would be better to have the prices slowly and steadily go up rather than have big jumps. That is why I think it would be good to have 5% of the increase be in the base rate. Thank you.

Please describe your question or comment briefly:

Since moving to the Boise area from SE Texas in 1999, I have watched, with deepening sadness, the failure of the Idaho Public Utilities Commission to curtail the uninhibited and unabashed greed of the utilities over which the Commission is purported to maintain some sort of control for the paying public. For shame, gentle persons; for shame. /John O. Le Blanc, Ph.D., AQC, U.S. Navy (Retired)

Please describe your question or comment briefly:
It's interesting that you have raise the cost. Last year you had the most rain in years & the costs were still high. Consider this...a house of 1100 sq feet cost \$80 dollars at the coldest time of the year only at 68 degrees. That's terrible. I know it must be higher for Senior Citizens who have it much higher. Like over \$200 dollars. You don't need to raise the price.
